CrowdStrike Falcon

Cybersecurity for small businesses made easy.
Modern cybersecurity solutions bring protection and peace of mind to your growing small business.
Tailored and affordable protection for small businesses.

Predict and Prevent Threats in Real Time for Your Small Business

Purpose-built in the cloud with a single lightweight-agent architecture, the Falcon platform protects the most critical areas of enterprise risk: endpoints, cloud workloads, identity, and data.

Powered by the CrowdStrike® Security Cloud, the Falcon platform leverages real-time indicators of attack, threat intelligence, evolving adversary tradecraft, and enriched telemetry from across the enterprise to deliver hyper-accurate detections, automated protection and remediation, elite threat hunting, and prioritized observability of vulnerabilities.

Cybersecurity that Protects You So You Can Focus on Your Business

Get ransomware protection that's proven and tested. The Falcon platform achieved 100% detection, 100% protection, and 100% accuracy in the 2024 SE Labs® Enterprise Advanced Security (EDR) Ransomware Test. Don't trust legacy antivirus to keep up with modern threats.

Quickly Install with Just a Few Clicks

Instantly download and install the Falcon platform to begin preventing threats. CrowdStrike provides immediate value and protection, with step-by-step guidance along the way.

Easy to Use, Easy to Manage

CrowdStrike Falcon® Go is designed for users of all skill levels. With Falcon Go, you can easily manage all protected devices and add new ones as needed.
