

POWERING HEALTHCARE

Reliable power is a crucial element of patient care. Whether it's inside the exam room or at the nurses station, you can depend on CyberPower Medical-Grade UPS Systems, surge protectors, and power strips for end-to-end power, reliability, and safety.

Designed for use in
patient care vicinities

UL CERTIFIED

CyberPower Medical-Grade Products have been tested to meet UL requirements necessary for use in patient care environments.

SAFETY FEATURES

Medical-grade outlets and plugs keep equipment securely connected. Power strips and surge protectors offer added safety with individually covered outlets.

PRACTICAL DESIGN

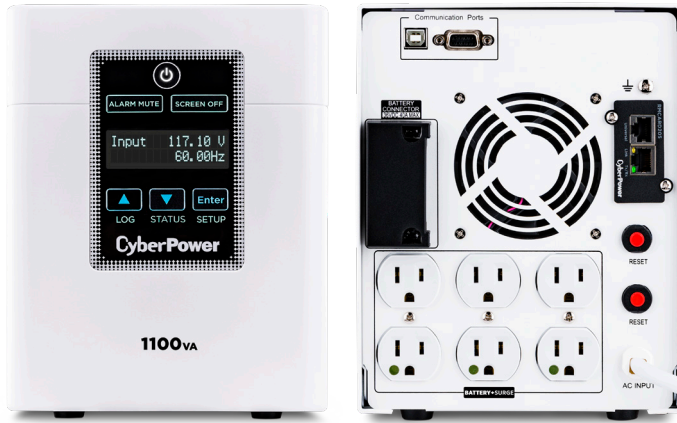

CyberPower power strips and surge protectors include keyhole slots for wall mounting. UPS systems are built with a low-profile, tip-resistant design.

CyberPower Medical-Grade UPS Systems meet UL 60601-1 requirements. CyberPower Medical-Grade Power Strips and Surge Protectors meet UL 2930 & UL 1449 requirements. This testing allows the units to be used within six feet of a patient – also known as the patient care vicinity.

POWER SOLUTIONS

Protecting patient care technology

CyberPower UPS Systems safeguard against equipment damage, power interruptions, system errors and other power supply malfunctions that could compromise patient comfort, safety, or data.

FEATURES INCLUDE:

- 6 medical-grade outlets and plug prevent accidental disconnections
- Simple, one-button operation to mute alarms
- Sealed, spray-resistant LCD screen tolerates repeated cleaning
- SNMP slot for remote management*
- Three-year warranty

*Available with the M1100XL UPS only
