# Eaton gets IT – in every environment

Customers agree: our selection and service are second to none!

Definitely a keeper.

"This has turned out to be a great little hub. I move from office to home frequently and this little box has me well-covered in either environment."

Robert
Verified Buyer

Great value in performance for the price.

"Anytime I head out of the house with computer in hand, I take this surge protector with me. You never know what or how dependable the power source is you're using to power your valuable equipment."

Joseph
Verified Buyer

Sturdy and worth the money.

"Frustrated by Lightning cables that fail too quickly, I was happy to find a Tripp Lite solution available. The product was as expected – well-made and high quality."

JC-PGH
Pittsburgh, PA

Great product and tough.

"I used this product at work and it lasted for a very long time. Also, it had tough construction and never showed the wires, unlike other products. I would suggest this product to anyone, especially for tough job sites."

Matthew
Albuquerque, NM

Small but useful.

"This portable adapter is easy to use. I can take it with me wherever I go. I've been using it for both my laptop and desktop computer."

Hubby
El Paso, TX

Compact, portable and strong!

"A great product, with the perfect size to slide into my laptop carrier case without taking up extra space. The body is strong and durable, yet lightweight and compact. Definitely recommend this product!"

Quality HDMI switch

"I am totally impressed with this switch. Built to be sturdy and attractive looking!"

Michael
Verified Buyer

I rely on this HDMI extender for our digital signage

"These super extenders have performed remarkably well. They are put in place for distances ranging from 100 feet through 260 feet."
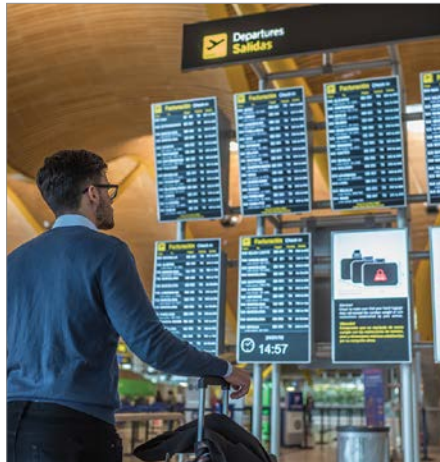

BloodCenter
Milwaukee, WI

Great product

"DP to HDMI adapter cable – great product for old computers converting to smart TV with HDMI ports!"

rward88
Mount Vernon

Worked great for our application

"Used this product for 3 camera feeds and 1 computer output on 4-up display. We tried a different, lower-cost 4x1 but it did not perform with lower resolution. Switched to Tripp Lite and everything works!"

MnMoondog
Minneapolis, MN

Outstanding product, great price

"Outstanding product. Battery was fully charged right out of the box. Can truly see a difference and hear a difference in my audio video equipment. Backup works perfectly."

Michael
Verified Buyer

Easy peasy...works like a charm

"Very simple product to use. Easy to connect. Works great. Priced well."

Customers agree: our selection and service are second to none!

We really like this rack!

"We used this cabinet rack in a place where we didn't have a closet. We got the white one, which looks good where we put it. We really like it with all its features & versatility!"

Todd
Verified Buyer

Great 2-monitor mount!

"I have 2 of them in my office and am extremely pleased with the build quality and the amount of desk space I was able to get back."

pd2008
Verified Buyer

The Best Protection

"Twelfth Tripp Lite purchase since recommendation by audio store in 1994. Will keep on buying, nothing protects like Tripp Lite."

Fred
Verified Buyer

Compact and sleek

"Purchased this charging station for our training laptops and love the adjustable feature for different sized technology. Would buy again for sure!"

BOM.com
Eugene, OR

If I need a power strip, it will be a Tripp Lite

"I own two of this model power strip. I have used these strips since I was in the army. I have never had one fail on me."

William
Verified Buyer

Great PDU

"We got 5 of these to replace our old PDUs. We have had zero problems with these and the fact that they 'lock' into the outlet is very reassuring; we no longer have to worry about accidentally unplugging half of the rack."
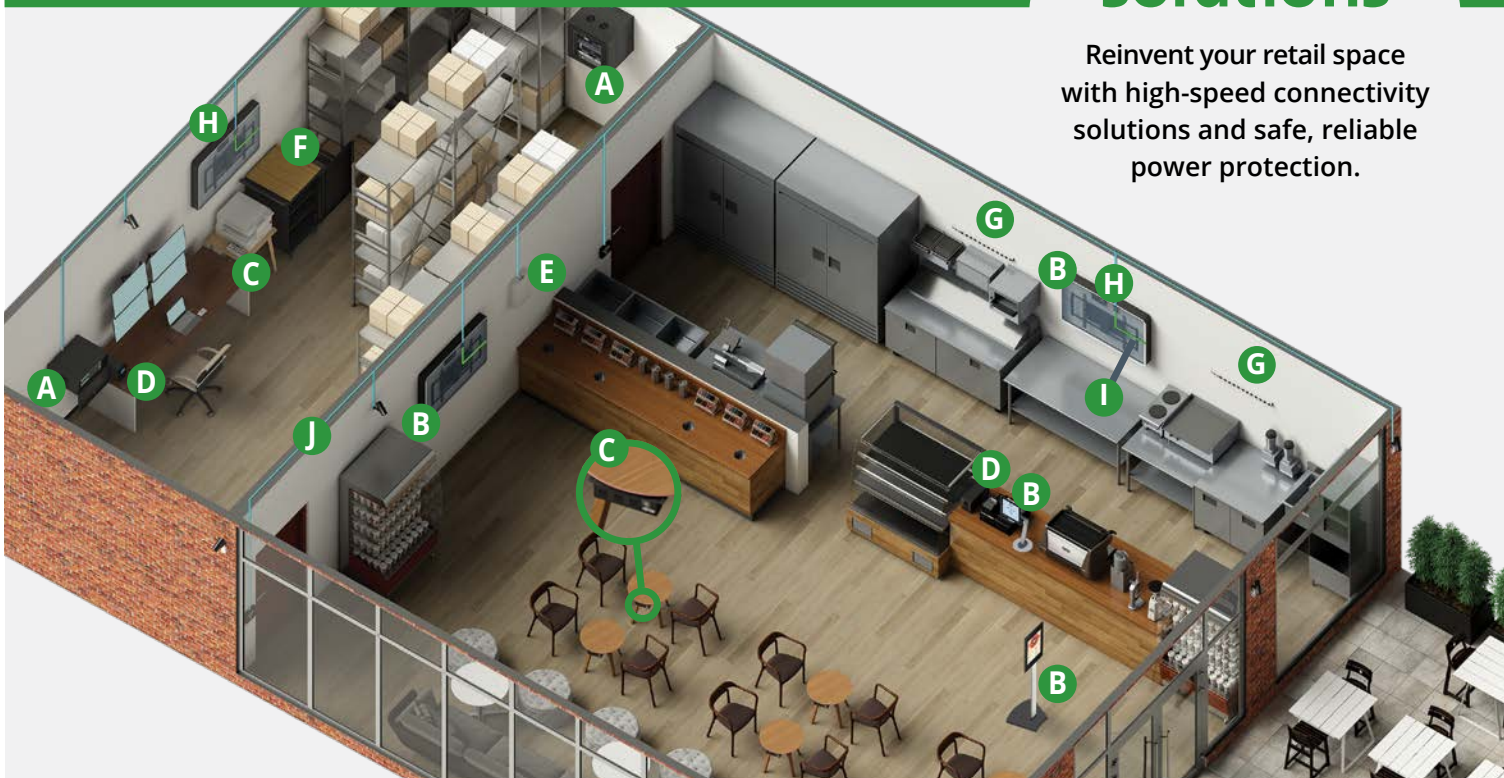

Verified Buyer
Loveland, Colorado

Solutions performed flawlessly

"We've used other products in the past and they failed to protect our VoIP network from downtime, damage and data loss caused by power outages. The solutions from Tripp Lite by Eaton have performed flawlessly for the district."

Rob Dickson,
Technology Director
Andover Public School District 385, Kansas

Specialist coordinated the details. I didn't have to guess.

"I provided a list of the equipment that needed to be connected at each location, and the sales specialist coordinated the details. I didn't have to guess on anything."

Michael Robinson,
Network and Telecom Administrator
Navarro College, Texas

It was the quality of the people

"More than anything, it was the quality of the people we dealt with that influenced our selection of Tripp Lite by Eaton."

Marty Mushrush,
District Systems Administrator
Adams County School District 50, Colorado

Teachers love that devices are easy to store and retrieve

"The teachers love the fact that devices are easy to store and retrieve. They also appreciate how simple it is to move the charging carts from room to room."

Mary Jo Heiberger,
Technology Coordinator
Visitation Catholic School, Illinois

Calling Tripp Lite by Eaton was the best call I ever made

"Within three days, we had moved in and made the new data center completely operational. Calling Tripp Lite by Eaton was the best call I ever made."

Ted Jongbloed,
Director of Technology Services
Waller Independent School District, Texas

The best overall value for the district

"Tripp Lite by Eaton offered the best overall value for the district with their mix of price, performance and customer service."

Dwight Reifsnyder,
IT Senior Operations Manager
Boulder Valley School District, Colorado

Healthcare solutions

Protect and connect patients and staff with power and connectivity solutions.

Patient Care Vicinity
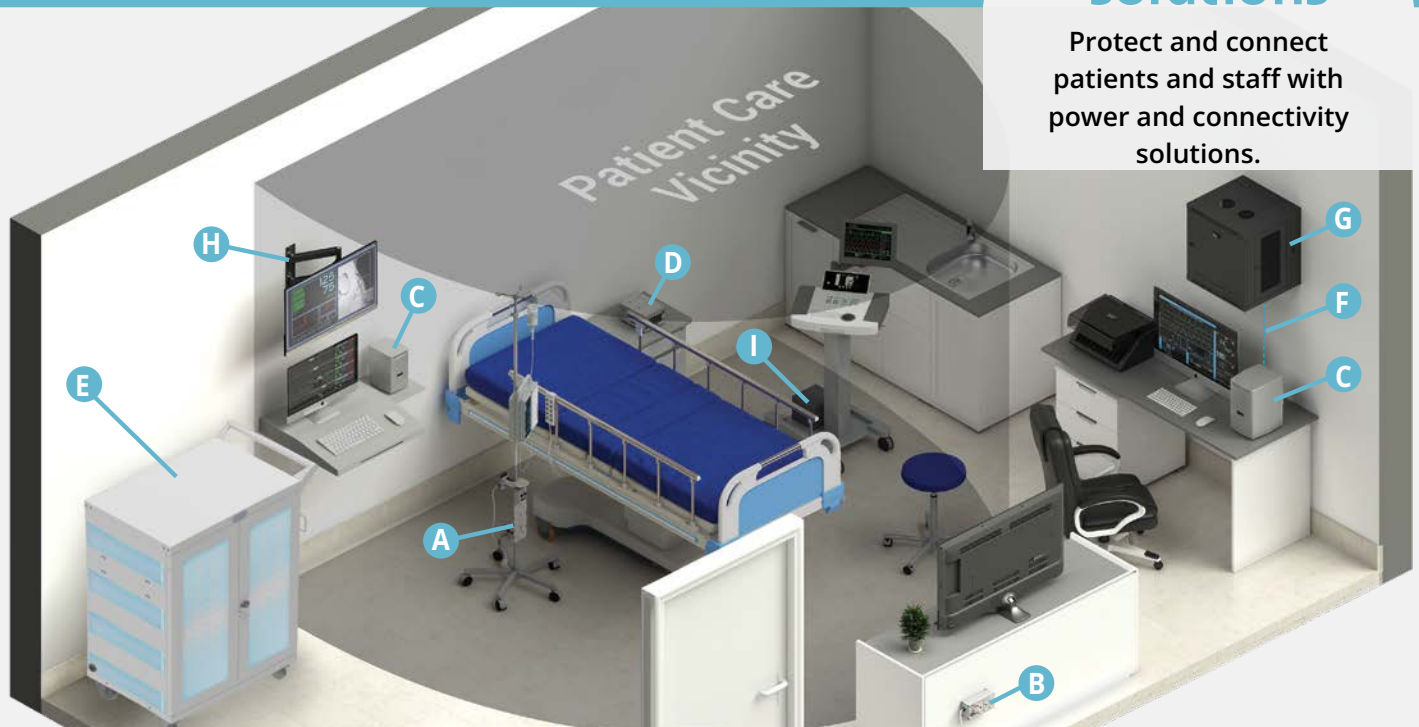

A — Medical-grade power strips

UL 1363A, UL 60601-1, UL 2930

Hospital-grade outlets distribute power in patient areas. New UL 2930 models feature a redundant ground connection to protect against electric shock.*

B — Medical-grade/hospital-grade surge protectors

UL 1363, UL 60601-1

Surge protectors safeguard equipment inside and outside patient areas. Hospital-grade plugs and outlets included.*

C — Medical-grade UPS systems

UL 60601-1

UPS systems with hospital-grade plug/outlets provide battery backup to equipment in patient areas during power outages.

D — Medical-grade isolation transformers

UL 60601-1

Isolation transformers with full UL or IEC 60601-1 listing protect sensitive electronic equipment in patient areas.

E — Hospital-grade UV charging carts

Charge, secure and sanitize up to 32 tablets and laptops (hospital-grade plugs in select models).*

F — Antibacterial cables

Ethernet, USB and video cables connect equipment where extra protection against bacteria is required.*

G — Wall-mount enclosures

Secure and organize IT hardware, rack-mount A/V equipment and other devices while preserving space.

H — TV/monitor wall mounts

Swivel/tilt wall mounts safely and securely accommodate up to 100 in. TVs and monitors.

I — Medical-grade hospital cart power supplies

UL 60601-1

Mobile power solutions keep hospital cart equipment running with up to 350W AC power, both inside and outside patient care vicinities.

* To promote a healthier environment for patients and staff, Safe-IT™ antimicrobial and antibacterial options are available for select models.

A perfect fit and a rock-solid product

"This media converter was the perfect fit for our scenario. We needed a device that would fit in a small space and fit nicely into place. The device is built solidly."

Dan
Indianapolis, IN

Surge protection is 100% reliable

"We've used surge protectors from Tripp Lite by Eaton in our offices for years without fault, and install them for our clients' home theaters, music systems, security systems and everything low-voltage. Surge protection from Tripp Lite by Eaton is 100% reliable."

American Entertainment Systems
New Richmond, OH

Does exactly what I needed it to do!

"Product provides the perfect solution for extending an HDMI signal to 4 different locations. Have had no issues with any products from Tripp Lite by Eaton."

Dollar Bill
Scarsdale, NY

Quite happy with the product

"I was looking specifically for a surge protector with USB power. I needed USB power for two cameras. I used both USB ports to provide power to the two cameras for a 3-hour event. I am quite happy with the product."

Andrew
Verified Buyer

My go-to switch for security system installs

"The unmanaged switch with PoE+ is my go-to switch for home video security system installs with less than 8 cameras. Love that it's rack-mount, too!"

Bryan
Verified Buyer

Very satisfied with our partnership

"We have been working successfully with Eaton for over 12 years and are very satisfied with our partnership."

Michael Simon,

Eaton gets IT – in every environment

Industrial solutions

Make Industry 4.0 a reality with solutions purpose-built to power, protect and connect IT equipment in harsh environments.
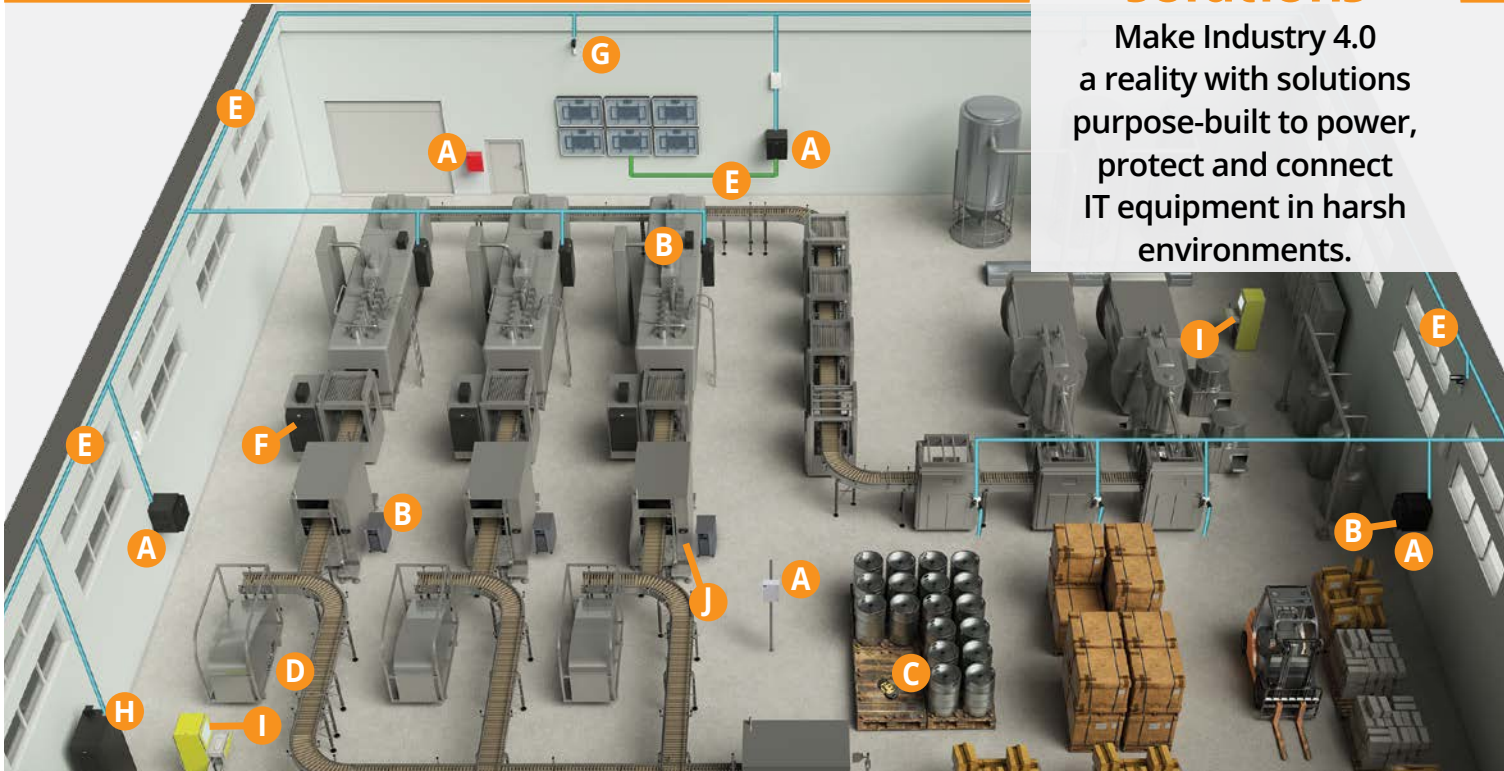

A — Industrial enclosures
Securely organize equipment and protect it against factory contaminants. Red or yellow first-responder models available.

### B — UPS systems
Battery backup systems prevent downtime and protect data during outages. Extreme temperature and DIN-rail mounting models available.

C — Safety surge protectors
Protect It!® industrial safety surge protectors provide outlet safety covers and rugged metal casing.

D — Industrial power strips
UL safety-rated strips distribute power in workbench, wall-mount or floor-mount applications and guard against accidental shutoff.

E — IP68-rated cables
Cat6, fiber, USB and HDMI cables offer options like shielding, IP68 rating and UL certification for high temperature applications.

F — DIN rail mountable panels, modules and couplers
Rugged metal panels and modules for keystone jacks and couplers organize and protect cable connections in DIN-rail installations.
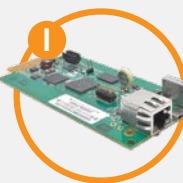

G — PoE solutions
Power over Ethernet switches, injectors, midspans and cabling power network devices with flexibility and low costs, making it simpler to add smart devices in factories.

H — Industrial-grade network switches
Ethernet switches with DIN-rail mount and PoE+ options can operate in temperature ranges as wide as -40°F to 167°F (-40°C to 75°C).

I — Remote management
Remote monitoring and management for UPS, PDU and cooling units make factory power more sophisticated and cost-effective.

J — USB hubs
Industrial hubs with metal housing and ESD immunity charge and connect up to 10 USB devices. DIN rail mountable options available.

I would buy this product over and over

"This inverter has all the power I need and then some. Does a great job in the truck. I'm an owner operator and have been for 35 years. Best power inverter I've used, it's never let me down. Great for service trucks."

Silver Bullet
Statesville, NC

Excellent Product for Remote Management

"16-port Cat5 KVM – easy to set up. Versatile as it gives endless connectivity options. I would buy this product again!"
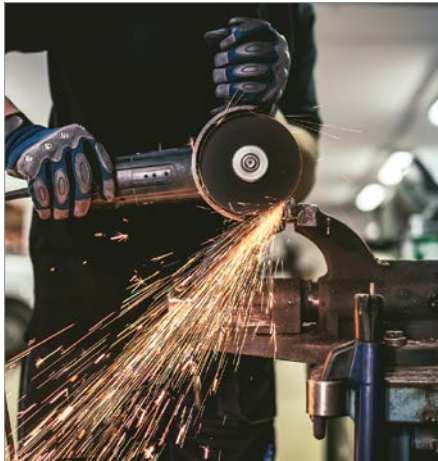

Ammar
Verified Buyer

So nice, I bought a second

"Nice and compact unit. This takes up 1/3 the space of the 10-year-old UPS and provides twice the power. Very happy having a reliable battery backup for network equipment. The first one worked so well, we ordered a second for another closet."

DCSO
Verified Buyer

Well constructed

"We have about 10 industrial power strips in various locations and under a range of environmental conditions. They have held up great for over a year. They are well constructed and have given us zero issues."

DCSengr
Verified Buyer

Good stuff - I have several of these

"Good stuff - I have several of these industrial surge protectors at the job site running multiple computers, shop fans, tools, radios, etc. Works better than expected."

Aircraft Mechanic
Daleville, AL

Purchasing quality can save you money

"As I get older, I realize that purchasing quality immediately can save you money, thus not buying cheap and then needing to purchase quality later. It is a plus all the way around! Purchase once and keep for a lifetime!"

Data center solutions

Maximize uptime with the smartest, most reliable data center power and connectivity solutions.

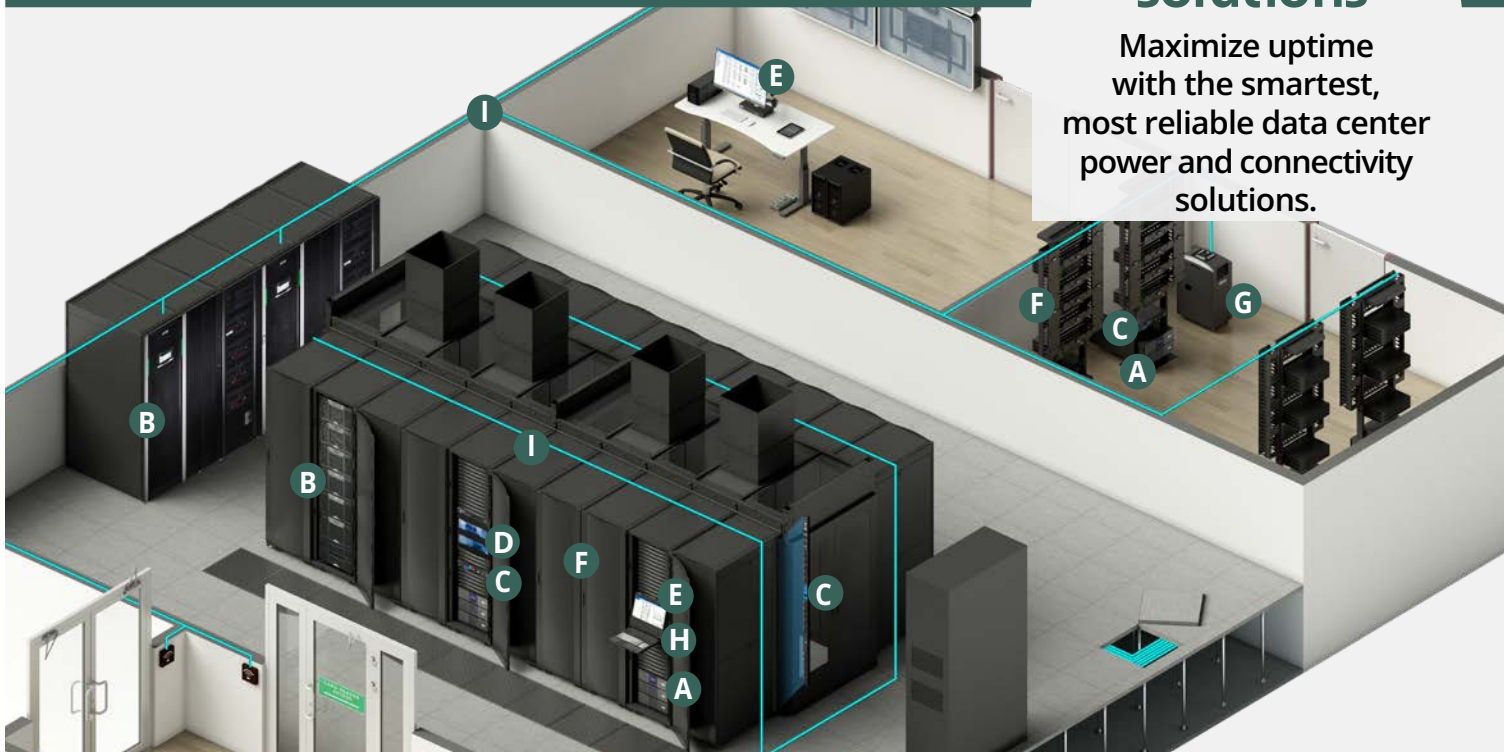

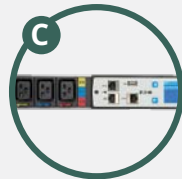

A — Single-phase UPS system
Provide up to 11kVA of reliable, efficient power. Expandable battery backup keeps equipment operating through blackouts and other power problems.

B — 3-phase UPS systems
Deliver up to 1500kVA of efficient power and scalable battery runtimes with a small footprint and low total cost of ownership.

C — PDUs
Distribute and manage reliable power. High Density (HD) models with best-in-class Eaton ePDU G3 technology fit more outlets in less space than any other PDU.

D — RFPS
Reinvent fiber network management with automated robotic cable connections and remote management.

E — Power management software
The Brightlayer Data Centers software suite equips operators with insightful, dynamic power management capabilities for safer, smarter and more efficient power.

F — Racks & enclosures
Organize and secure 2U to 58U of network rack equipment in locking, ventilated steel cabinets and open-frame racks.

G — Cooling units
Rack-mount, in-row and portable units protect mission-critical equipment against overheating with up to 25.8 kW cooling.

H — KVM switches
Control multiple servers from a single console. Available features include IP remote access, Cat5 cabling, multiuser access, LCD consoles and NIAP-certified security.
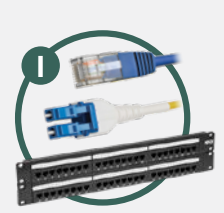

I — Cables & connectivity
Provide fast and reliable copper or fiber network connections. Patch panels organize connections with up to 168 ports.*

*To promote healthier work spaces in data centers, Safe-IT™ antimicrobial and antibacterial options are available for select models.

Eaton's units are very well made

"Eaton has such a long history of being the Cadillac of UPS systems — not to mention, they are a really good price. Eaton's units are very well made and we have had no issues whatsoever over the long term."

Bill Hawk,
Manager of Data Center Operations
Lorain, OH

KVM is easy to set up, easy to use

"Easy to use, great to keep your racks organized since you can use any length Ethernet cables for the connection back to the KVM. Ready to use out of the box."

Matt
Philadelphia, PA

Helps me work in a calm environment

"The Quiet Server Rack with Sound Suppression helps me work in the data center in a calm environment. It stores the devices in a secure place and it's very organized."

Mohamed
Verified Buyer

Calling Tripp Lite by Eaton was the best call I ever made

"Within three days, we had moved in and made the new data center completely operational. Calling Tripp Lite by Eaton was the best call I ever made."

Ted Jongbloed,
Director of Technology Services
Waller Independent School District, Texas
