Stronger together

Tripp Lite is now part of Eaton

With the successful integration of Tripp Lite series products, Eaton has expanded its distributed IT infrastructure and connectivity portfolio to provide customers of all sizes with the most comprehensive and innovative solutions from desktop to data center.

Eaton's Tripp Lite series products are reliable, competitively priced, in stock and backed by outstanding service and support. Perfect for complementing core IT equipment like servers and network hardware, Tripp Lite series products integrate seamlessly with Eaton's broader portfolio of industry-leading enterprise power management products and services.

Our quality and reliability provide unmatched value for your IT infrastructure.
