For more than 30 years, ESET® has been developing industry-leading IT security software and services to protect businesses, critical infrastructure and consumers worldwide from increasingly sophisticated digital threats.

ESET—a global leader in cybersecurity—has been listed as Customer’s Choice in the 2019 Gartner ‘Voice of the Customer’ for Endpoint Protection Platforms.
Protect your company endpoints, business data and users with ESET’s multilayered technology. ESET PROTECT platform offers customizable security solutions, easy to manage from a web console.

* Currently available on-premises only

#### ESET ENDPOINT SECURITY
Advanced multilayered protection for computers, smartphones and virtual machines.

#### ESET SECURE AUTHENTICATION
Multi-factor authentication that spans across commonly utilized systems to prevent data breaches and meet compliance requirements.

#### ESET ENTERPRISE INSPECTOR
Endpoint detection and response tool that enables continuous comprehensive monitoring of real-time endpoint activity, in-depth analysis of suspicious processes and immediate response to incidents and breaches.

#### ESET CLOUD OFFICE SECURITY
Advanced preventive protection for Microsoft 365 applications against malware, spam and phishing attacks via an easy-to-use cloud management console.

#### ESET DYNAMIC THREAT DEFENSE
Provides another layer of security for ESET products like Mail Security and endpoint products by utilizing a cloud-based sandboxing technology to detect new, never-before-seen types of threats.

#### ESET PROTECT MANAGEMENT CONSOLE
Single-pane-of-glass remote management for visibility to threats, users and quarantined items. Available as cloud or on-premises.

#### ESET SERVER SECURITY
Server-optimized solution that utilizes our multilayered threat prevention.

#### ESET MAIL SECURITY
Safeguards your email with simple set and forget protection against malware and spam.

#### ESET MOBILE SECURITY
Lightweight endpoint security for Android mobile devices including antimalware, anti-phishing and anti-theft, as well as ESET Mobile Device Management for Apple iOS.

#### ESET FULL DISK ENCRYPTION
Robust encryption solution for system disks, partitions or entire devices to achieve legal compliance.

#### ESET CYBERSECURITY AWARENESS TRAINING
An engaging learning experience designed to educate your workforce through gamified quizzes, interactive sessions and role playing.

**ESET TESTIMONIALS**

- **Feb 16, 2021**
  “Best virus protection we’ve ever had!”
  ESET PROTECT Advanced runs unnoticed by the user, except for a quick ESET screen that flashes on your display when turning on your computer. It does not compromise the speed or efficiency of my computer. We have not had any virus concerns on our PCs, tablets, or server since we installed this product 3 years ago. It protects us so that we can concentrate on serving our clients without concerns of data breaches or computer downtime due to virus infection.

- **Oct 29, 2020**
  “ESET antivirus software protects your data and applications professionally”
  Easy to install and maintain. Updates work well and are compatible with most operating systems. No system slowdowns or crashes. Complete protection against hackers, malware, and data loss. This is suitable for any computer and works well for any servers. Makes all notifications about the system and greatly facilitates users. So far no virus has been able to interfere with the ESET antivirus software functionality.

- **Oct 02, 2020**
  “An amazing cloud-based anti-malware suite”
  This cloud-based security software provides endpoint security against malware for businesses and enterprises of all kinds. Its functions are not just limited to endpoint security, but it also provides security against firewall breaches, spam emails, bots intrusion, and also protects your personal information such as passwords and usernames, etc. from threats.
