What is ESET Premium Support?
Why ESET Premium Support?

**NO MORE LEARNING CURVE**
ESET products are designed to be intuitive and have comprehensive accompanying documentation. However, it’s still possible that advanced features could be missed by your IT team or particular product settings misunderstood, which could prevent them from executing critical operations.

**FASTER RESPONSE, FASTER RESOLUTION**
ESET Premium Support delivers a guaranteed, 24/7 response to any incident affecting the smooth functioning of your IT environment.

**ENSURING BUSINESS CONTINUITY**
Deploying new products without any previous knowledge can be tricky even for organizations with dedicated security and IT teams. The deployment and/or upgrade of new products into live environments without the required expertise presents a serious business continuity risk.

**A FAST-TRACKED RESPONSE**
Get straight through to an ESET expert who knows your infrastructure and will be able to solve the issue quickly and effectively.

**FINE-TUNING YOUR IT MACHINE**
Purchasing and deploying hi-tech products unfortunately does not guarantee their seamless operation. Specific combinations of operating systems, hardware and software from different vendors may cause unexpected behaviors. Leave deployment to experts who can foresee clashes and incompatibilities and will take the right action quickly.

**COMPLIANCE**
Many industries have strict compliance rules which require products to be deployed by authorized vendors.
