

Safeguard AI usage at scale with F5 AI Guardrails

Securing innovation is a critical priority

With AI becoming an essential part of day-to-day operations, IT teams are facing pressure to protect organization-wide usage.

KEY FACTS

58%

of employees regularly use AI tools at work.¹

63%

of organizations lack AI governance policies.²

New threats are on the rise

PROMPT INJECTION

Use of manipulative inputs to access sensitive information or trigger connected API actions

#1 on the OWASP Top 10 for LLM Applications 2025³

DATA LEAKAGE

The exposure of sensitive, confidential, or proprietary information in AI prompts

48%

of workers upload sensitive company data to public AI platforms⁴

HARMFUL OUTPUTS

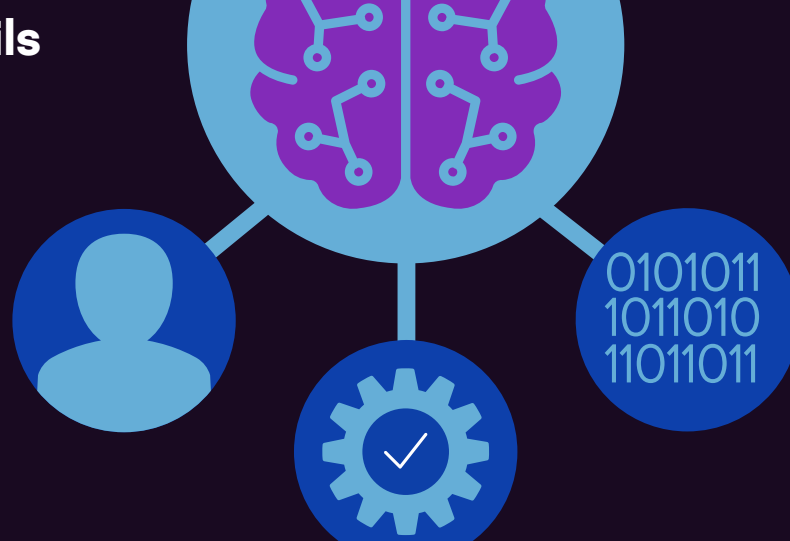

Unsafe or noncompliant AI responses that can lead to negative outcomes

66%

of employees use AI at work without properly assessing the outputs⁵

Protecting the intersection of users, models, and data

As an integral part of the F5® Application Delivery and Security Platform (F5 ADSP), F5® AI Guardrails allows you to take control of your organization's AI usage without complicating operations.

Secure every model with AI Guardrails

Govern every interaction

Inspect AI activity across models, agents, and apps and provide real-time protection for data loss prevention and policy violations.

Simplify AI compliance

Ensure enterprise-wide policy alignment with automated auditing templates for GDPR, HIPAA, the EU AI Act, and more.

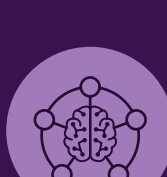

Protect users without slowing them down

Customize usage guidance by workflow or context to establish governance without introducing friction.

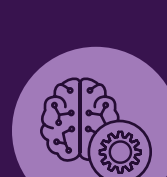

Reduce harmful outputs

Align AI interactions to moderation policies with moderation filters for toxic, biased, or noncompliant content.

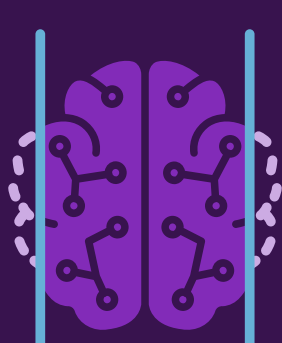

Outpace attackers with an adaptive approach

Combine AI Guardrails and AI Red Teams for automated testing and continuous security improvements.

Leverage model-agnostic functionality

Safeguard all models with uniform security and preset configurations for the most popular enterprise and open-source AI.

Take advantage of a comprehensive solution for today's complex application and AI landscape

Together, F5 and CDW can help you scale your AI initiatives with confidence.
