

Google Workspace for Education

Upgrade your digital learning environment

Education Plus is the ultimate Google Workspace for Education edition. It includes all the enhanced security features and premium teaching and learning tools from Education Standard and the Teaching and Learning Upgrade, and more.* Deploy Education Plus to transform your institution's digital learning environment.

**Education Fundamentals + Education
Standard + Teaching and Learning Upgrade**

Take teaching and learning to the next level.

Empower educators to do their best work with upgraded tools that allow them to connect and engage learners from anywhere.

Be proactive against security threats.

Protect your school with advanced tools that provide more visibility, insights, and control - so teaching and learning can continue without interruption.

Give your entire domain the features it needs.

Since Education Plus is priced by enrollment (per student), your institution can bring Education Plus benefits to the entire education community. For every four student licenses bought, you'll receive one staff license. The minimum purchase requirement is determined by school size, so you never purchase more than you need.

Google Workspace for Education

Get additional premium education features

These enhanced tools enable digital transformation with premium teaching and learning capabilities and proactive security features – plus additional storage, Cloud Search, larger meetings, priority support, and more.

Teaching and learning

- **Involve your entire education community.** Include up to 500 participants or live stream to as many as 100,000 viewers with Google Meet to enable connections across your entire school community.
- **Boost teaching and learning momentum.** Create classes automatically and keep class lists in sync with your school's Student Information System using roster import with Elevate Data Sync* and Clever. Reinforce class concepts with writing and analysis assistance for students in Docs and Sheets.
- **Engage your learners.** Encourage active participation with easy-to-use, upgraded Google Meet features, including breakout rooms, attendance tracking, interactive Q&As, polls, live-translated captions, automatic transcriptions, and recording.

Security and insights

- **Proactive digital security.** Quickly and easily prevent, detect, and remediate security incidents and track security health.
- **Get more control over your data.** Manage your mobile devices, as well as your data, based on geographic region.
- **Extract insights.** Access analytics by exporting Gmail logs and Classroom logs for analysis in BigQuery or your own tools – and extract from advanced audit logs for Drive or devices.

Access and share knowledge

Use the power of Google to search for content across your domain, using your institution's own Cloud Search

Get the storage needed to support enhanced tools

With Education Plus, receive an **additional 20 GB for each licensed user** on top of the 100 TB of pooled cloud storage shared by your organization.

Build custom apps with no coding required

AppSheet Core empowers your school community to build and share powerful applications and automations to simplify projects, track tasks, and customize solutions.

Get help when you need it

Get priority response from a team of education specialists.*

* Support is available to institutions that purchase over 200 licenses.

Always improving

We're always improving with feedback from you – adding features and updates to deliver on education needs and goals.
