

WE GET LAPTOPS BUILT FOR BUSINESS.

For devices with the capabilities to meet the demands of your business, you need HP, ChromeOS and IT Orchestration by CDW®.

HP and ChromeOS

Power up your cloud-centric workflows with HP Chromebook Enterprise devices. The sleek, secure and high-performing HP devices business pros love are coupled with the comprehensive manageability and endpoint security of ChromeOS, making IT's job easier – because simple is always better.

A simpler, more secure way to use the cloud

- **Simply Work.** HP ChromeOS adapts to the way your users work, whether it be on the go or at their desks. Multitask nimbly and smoothly with access to millions of apps including Microsoft Office 365, Google Workspace, SaaS apps and more, on robust, beautiful devices that boot up in under six seconds.
- **Simply Secure.** Keeping your endpoints safe from evolving cyber threats is easy with multi-layered, hardware-enforced devices; data and identity security; AI-driven threat detection; sandboxing; anti-theft protection; automatic updates and a self-healing, read-only OS.
- **Simply Manage.** HP Chromebook Enterprise devices come with the business capabilities of ChromeOS unlocked, allowing seamless integration into your environment in minutes, enabling 500+ policies and support for Active Directory and leading VDI and enterprise mobility management solutions.

OFFER: 15% DISCOUNT | EXPIRES JUNE 30, 2023
