

Improve communication across the entire institution.

Responsible AI writing assistance. Everywhere writing happens.

Grammarly is the impactful AI writing partner that helps students improve their writing skills and prepare for the AI-connected workforce. Grammarly works everywhere writing happens, bringing seamless communication assistance to any writing task.

Boost student retention

Impactful writing suggestions to help all students become more confident writers and retain through graduation.

Seamlessly infuse career preparation

Grammarly works in over 500k applications with context-aware suggestions that prepare students for professional communication in the AI-connected workforce.

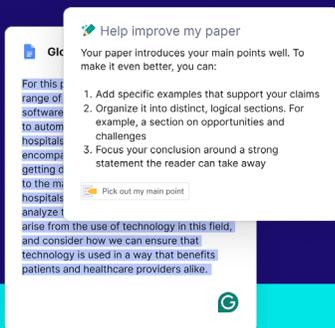

Innovate without sacrificing integrity

Responsible AI writing assistance that is always in the institution's control and designed to elevate, not replace, student's critical and creative thinking.

How Grammarly can help your institution meet their goals.

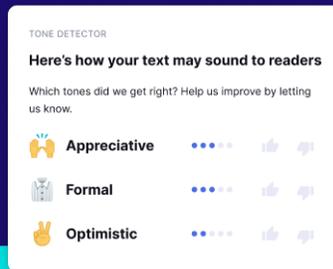

Grammarly has been a pioneer in AI writing assistance for 15 years. Best-in-class revision suggestions are paired with contextually-relevant generative AI capabilities that work virtually anywhere writing happens across your tech stack.

Boost student writing

Grammarly has been empowering students to write more effective papers since it was founded in 2009. With real-time suggestions that correct grammar, improve writing clarity, check for unintentional plagiarism, and adhere to citation best practices, Grammarly improves writing over time and helps students turn in their highest-quality work.

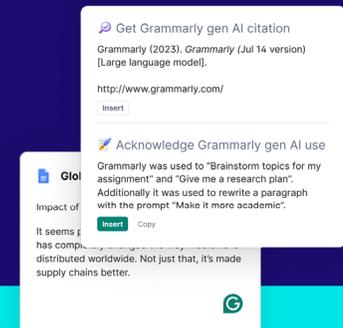

- Grammar, spelling, fluency, and clarity suggestions
- Plagiarism detection
- Auto citations from academic websites
- In-context brainstorming and ideation prompts
- Real-time feedback prompts

Level-up institutional communication

Grammarly works in over 500,000 apps and is trusted by over 70,000 companies. Because Grammarly offers a unified experience across the entire tech stack, faculty and staff can use Grammarly to increase productivity and efficiency, while staying on brand.

- Tone detection and tone recommendations based on your goals
- Optional "App Actions" integrations with 3rd-party apps
- Re-writes and "improve-it" prompts
- Customizable brand tones and style guides specific to each institution

Maintain institutional control and transparency

Grammarly's enterprise-grade security features keep your end-user and institutional data safe. Grammarly does not train on education customers' text data and never shares data with 3rd parties. Plus, Grammarly encourages end-users to cite gen AI use with one-click prompts and auto-citations

- Administrative control over gen AI and App Actions features
- Analytics dashboard with aggregated usage and improvement data
- Transparent use prompts to populate how gen AI was used on assignments
