

Why hybrid workers need HP devices on the Intel® Evo™ platform

HP laptops on Intel vPro® platform, an Intel® Evo™ design, help end users stay in their workflow no matter where they go by reducing distractions and interruptions. And with responsive sleek designs that feature instant wake and a long battery life, they're the ideal choice for a hybrid workforce. The Intel Evo design helps ensure customers that these laptops are verified to deliver the ultimate mobile performance – which means they don't have to sacrifice performance, graphics, or battery life to get a beautiful thin-and-light laptop.

PERFORMANCE WHERE AND WHEN YOU NEED IT

The hybrid architecture of new 12th Gen Intel® Core™ processors puts the power behind the tasks that need it most, so your teams can crush demanding workloads and multitask with ease. New LPDDR5 memory is fast and efficient.

An Evo Design

BE IN THE ROOM FROM ANY ROOM

Get meetings going quickly with intelligent features like HP Auto Lock and Awake.¹ Collaboration, powered by HP Presence,² features crisp, clear Audio by Bang & Olufsen, a 5 MP camera, HP Auto Frame²; and an ultra-bright display.

UNIVERSAL CABLE CONNECT

Thunderbolt™ 4 connectors make plugging in multiple displays and accessories a snap and charging thin-and-light laptops a single-cable solution. USB-C ports on each side of the device allow for convenient docking.

ALL-DAY BATTERY LIFE

Stay unplugged for longer and recharge faster with battery life designed for the real world. Tap into HP Power Manager to customize battery use and make the most of every charge.

HP Elite Dragonfly G3

IT'S DREAM MACHINES

Hardware-based security keeps teams protected without slowing them down while remote support capabilities make it easy for IT to have their employees' backs, no matter where they're working.

13.5 in 90% SCREEN-TO-BODY RATIO

All-new 13.5" diagonal 3:2 aspect ratio offers the ultimate balance of portability and screen real estate.

FAST, RELIABLE CONNECTIONS

Video chat or share files with a connection that users can count on with up to 5G wireless broadband technology with 4x4 antennas.³

IMMERSIVE VIEWING

A beautiful display brings visuals to life in crisp resolution and vivid colors.

LIGHTER THAN AIR

Starting at under 1 kg,⁴ the HP Elite Dragonfly provides mobility beyond expectation in an exquisitely crafted laptop with striking finishes and accents that highlight design.

¹ Requires Windows 10 and higher and set up of facial recognition through Windows Hello.

² Requires myHP application and Windows OS.

³ 5G module is optional and must be configured at the factory. Module designed for 5G NR NSA (non-standalone) networks as carriers deploy Evolved-Universal Terrestrial Radio Access New Radio Dual Connectivity (ENDC) with both 100 Mhz of 5G NR and LTE channel bandwidth, using 256QAM 4x4 as defined by 3GPP. Module requires activation and separately purchased service contract. Check with service provider for coverage and availability in your area. Data connection, upload and download speeds will vary due to network, location, environment, network conditions, and other factors. Backwards compatible to 4G LTE and 3G HSPA technologies. 5G module planned to be available in select platforms and select countries, where carrier-supported.

⁴ Actual weight will vary by configuration, non-touch with HP Sure View Reflect, touch panels, WWAN, 6-cell battery, 512 GB SSD or higher, more than 8 GB memory, and NFC not available on configurations starting at less than 1 kg.

Performance varies by use, configuration and other factors. Learn more at www.Intel.com/PerformanceIndex. Intel technologies may require enabled hardware, software or service activation. No product or component can be absolutely secure.

Your costs and results may vary.
