About i-PRO

i-PRO Americas Inc. was established on October 1, 2019 to provide comprehensive professional Security Surveillance, Public Safety and Medical Imaging solutions. Built on a history of innovation that spans over 60 years with Panasonic, we continue to expand our portfolio with advanced AI-driven software solutions to complement our renowned line of best-in-class imaging technologies and edge products.

Panasonic Legacy
- Over 60 years of innovation
- Global sales network
- Leadership in quality

i-PRO Originality
- Open partnership
- Quick and reliable
- Specialized in sensing solutions

SOLUTION
- Intelligent Surveillance Solution Business
- Law Enforcement Solution Business
- Industrial Medical Vision Solutions Business

DEVICE / SERVICE
- Surveillance Camera Systems
- Evidence & Investigation Support Systems
- Facial Recognition Systems
- Medical & Industrial Cameras
- Image Analyzing Software
- Cloud Imaging Services

CORE TECHNOLOGY
- Video Capturing Technology
- Sensing Technology
- AI Video Analysis Technology
- Data Security Technology
i-PRO TOTAL SECURITY SOLUTIONS

i-PRO INTELLIGENT SURVEILLANCE SOLUTIONS WORKING TOGETHER FOR A SAFER SOCIETY

i-PRO delivers the most comprehensive portfolio of scalable enterprise solutions combined with highly experienced engineering, sales and support personnel who understand the needs of professionals who serve and protect communities. By seamlessly integrating our best-in-class, intelligence-driven video surveillance, video management software, access control platforms, and robust analytics, we enable security professionals with the tools to make informed decisions when every second counts. Our comprehensive lineup of security solutions offers performance, reliability, cost-efficiency and personal privacy that local government officials and citizens can trust.

i-PRO SECURE CITIES

i-PRO PUBLIC SAFETY AND INTELLIGENT SURVEILLANCE SOLUTIONS WORKING TOGETHER FOR LAW ENFORCEMENT AND MUNICIPALITIES

The i-PRO Secure Cities program delivers the most comprehensive portfolio of industry-leading technologies combined with highly experienced engineering, sales and support personnel who understand the demands and challenges municipalities face today. By seamlessly integrating our best-in-class law enforcement technologies, imaging solutions, video and access management platforms, and intelligent analytics, the i-PRO Secure Cities program greatly enhances security and municipality operations. It also offers performance, reliability, cost-efficiency and personal privacy that local government officials and citizens can trust.

i-PRO provides innovative security solutions for:
- Law Enforcement Digital Evidence Capture & Management
- Municipal/Law Enforcement Surveillance & Security
- Traffic Monitoring
- Public Health & Safety Compliance
- Public Events & Venues
- Mass Transportation Hubs
- Schools & Universities

i-PRO offers a comprehensive lineup of video surveillance products and solutions with the highest image quality, mission-critical reliability and the lowest total cost of ownership in the industry. Our goal at i-PRO is simple: to make your life easier.

We re-engineered our hardware and software into a plug-and-play, open-strategy platform that delivers enhanced point-to-point data security and enterprise-level management, all wrapped in powerful, intuitive applications.

Here’s what makes i-PRO solutions different:
- One Partner
- Contracts & Grants
- Complete Solution
- Upgrade Program
- 60 Years Experience
- U.S.-Based Tech Support
- Training & Support
- Advanced Features

“The physical security industry has the potential to step up and help companies do more with less by providing a wealth of data and insights not only to help protect people and assets, but also to help the bottom line.”
— Norio Hitsuishi, Global Head of Product Management, i-PRO Co., Ltd.
**APPLICATIONS**

**Specialized**

**Traditional**

**FEATURES**

**eXtraordinary**

eXtraordinary Applications — X-series cameras are i-PRO’s most powerful edge-based devices and the most powerful AI processors to support a large number of analytics simultaneously.

**Standard**

Standard Applications — S-series cameras also support analytics processed on the edge but strike a balance between more traditional applications and features.

**Utility**

Utility Applications — U-series cameras are reliable, economical and suitable for general projects not requiring AI analytics.

Our i-PRO Camera Series Can Suit Your Unique Needs
i-PRO NETWORK PRODUCTS

i-PRO cameras are designed for multiple applications and provide a wide range of capabilities. We offer several resolution options, high-accuracy analytics on select X- and S-series models, the highest cybersecurity FIPS-2 Level 3 and more. All i-PRO cameras include a license for VI MonitorPlus VMS software and are backed by a 5-year warranty.

KEY OFFERINGS BY i-PRO PRODUCTS

- **RELIABILITY**: More than just meeting industry standards
- **DATA SECURITY**: Preparing for the threat of cyberattacks
- **DATA COMPRESSION**: Reduced load of network and data storage cost
- **DATA ANALYTICS**: Efficient reduction of system load by edge and cloud
- **IMAGE QUALITY**: Capturing evidence under extreme environment
Lower Total Cost of Ownership
Affordability, flexibility and a simple licensing model sets Video Insight (VI) apart from the rest. We provide one of the most cost-effective video management system (VMS) solutions on the market.

The VMS Features You Love
The VI VMS has a wide range of robust features you’d expect to find in high-end software. Health Monitor, automated failover, unlimited base client/user seats, active directory/LDAP integration and powerful analytics are included.

Scale Your Systems, Not Your Limitations
VI’s pure 64-bit platform supports an industry-leading number of cameras per server, allowing for high scalability. Whether a user wants to integrate VI with their legacy hardware, or i-PRO’s own ASM-based embedded recorders, VI’s open architecture allows for centralized administration and management through one easy-to-learn user interface.

World-Class U.S.-Based Support
i-PRO prides itself on assisting you in your time of need in a timely manner with a call or email to our local U.S.-based support center. No matter if it’s software or hardware related, we will take care of you.

Wide Range of Supported Cameras
Being an open platform, VI supports over 5,000 camera models from more than 150 manufacturers.

Hardware and Software Bundling
Users of i-PRO and Advidia camera hardware and VI server hardware do not require any VI VMS licensing. Users of our new i-PRO AI-enabled cameras have access to our powerful i-PRO Active Guard forensic search plug-in at no cost.

Competitive Upgrade Program
The Competitive Upgrade Program (CUP) allows you to transition from your current enterprise VMS solution to VI at a fraction of the cost. CUP allows you to retain your hardware investments while lowering your total cost of ownership.

Making the Most of Existing Legacy Systems
VI easily integrates with most existing systems, whether it is access control, legacy IP cameras or building management. Our robust software development kit and application programming interface make it easy to maintain a single interface to manage them all under one umbrella.
Video surveillance is just one of the components needed to achieve a secure environment. Another main element of any safety roadmap should be an access control system that enables its users to quickly and efficiently set schedules, manage users, produce reports and lock down the entire site in the event of an emergency. The MonitorCast access control application is integrated with Video Insight to provide a seamless, unified security solution that allows security officials to increase readiness and quickly respond to incidents.
NEW i-PRO BODY-WORN CAMERA BWC4000 WITH DETACHABLE BATTERY

Built on i-PRO Americas Inc.’s tradition of video surveillance excellence for law enforcement, the new and improved i-PRO body-worn camera with a detachable battery keeps your officers on the street. Featuring a two-piece design, the BWC4000 is IP67 / MIL-STD-810H rated to provide officers with a more reliable way to capture video and audio evidence in nearly any condition.

i-PRO’s BWC4000 records in 1080P / 720P and seamlessly integrates with i-PRO’s Unified Digital Evidence management software. The BWC4000, in unison with i-PRO’s in-car video systems and fixed-surveillance cameras, forms a unified evidence management platform that preserves the chain of custody.

KEY FEATURES

- **NEW** Detachable Battery
- **NEW** H.264 / H.265 Video Compression
- **NEW** MP4 Video File Format
- **NEW** LCD Menu for Tagging
- Rugged IP67 and MIL-STD-810H Architecture
- 1080p / 720p / 360p Resolution
- 16:9 & 4:3 Aspect Ratio
- 4 Microphones for Advanced Noise Reduction
- Compatible With ICV4000 In-Car Video System
- Built-In GPS, WLAN and Bluetooth LE
NEW i-PRO ICV4000 FHD & VC35 (AS-1) FRONT CAMERA

ICV4000 360° FHD
The new i-PRO Americas Inc. ICV4000 360° FHD in-car digital video recording system offers industry-leading image quality for unmatched critical mobile video evidence capture. The WV-VC35 Full HD 1080p front camera delivers amazing clarity and color reproduction even in low light. The ICV4000 system supports up to four additional HD cameras for complete 360-degree situational awareness.

- Full HD 1080p high-quality video evidence capture
- Unparalleled 360-degree recording and viewing
- Supports up to two 512GB solid state drives with 256AES encryption
- Full integration with the BWC4000 Body-Worn Camera with field swappable battery
- Compatible WV-VC35 front camera offers full color in extreme low-light conditions
- Compatible WV-VC35 front camera offers industry-leading, high resolution, 86-degree wide-angle field of view
- Available wireless microphone transmits quality audio up to 1 mile
- Compatible with Unified Digital Evidence On-Premise and CloUDE Hosted DEMS

KEY FEATURES

- Improved Hi-Speed Video Processor
- MP4 Video File Format
- Built-In GPS, Dual 802.11ac Wi-Fi Support and Bluetooth 4.2LE
- Dual SSD Capability up to 1TB With 256 AES Encryption
- Tested to MIL-STD-810H Standards
- 1080p / 720p / 360p Configurable Resolution
- Compatible With i-PRO Public Safety VC30, VC31, VC32, VC35 and VCF41P Cameras
- Records up to 5 High-Resolution Cameras at the Same Time
NEW i-PRO WV-VCF41P 4K SENSOR PANORAMIC FRONT CAMERA

The new i-PRO WV-VCF41P 4K Sensor Panoramic Front Camera harnesses the power of the advanced Ambarella AI vision processor for AI edge applications.

i-PRO reduces your storage requirements by focusing on the view you need in front of the vehicle. This extremely wide panoramic view captures high resolution video evidence that other cameras miss.

WV-VCF41P (150° Field of View 32:9)  
WV-VC35 (86° Field of View 16:9)
i-PRO Americas Inc. introduces CloUDE powered by Genetec!
i-PRO, a global leader in advanced sensing technologies, and Genetec, the leader in video management, have come together to provide an open platform solution that offers you the choice between on-premise or cloud-hosted management for your digital evidence. i-PRO’s CloUDE powered by Genetec is a digital evidence management system that facilitates collaboration between agencies, corporate departments, lawyers and the public. Grant immediate access to evidence and ensure that the information is only shared with authorized individuals.

Compatible with i-PRO’s BWC MK3, BWC4000, Arbitrator360-HD, and ICV4000, i-PRO’s CloUDE powered by Genetec gives you the ability to choose based on your specific needs and budget, and you retain complete ownership of all your evidence and metadata.

**KEY FEATURES**

- Centralize Digital Files in One App
- Built-in Video Redaction
- Video Conversion and Review
- Upload Files From the Public
- Maintain Chain of Evidence
- Video Request Workflows
i-PRO now offers you the choice between on-premise or cloud-hosted management for your digital evidence. i-PRO’s UDE On Premise allows you to manage and store all of your digital evidence data at your facility. You choose the hardware and installation setup that fits your needs. All evidence files are encrypted and hashed, ensuring their security and integrity from capture to court to archiving. With i-PRO’s UDE On Premise, you are in control of your data security policies, and you can access the information without logging into an external cloud-hosted or storage environment.

i-PRO gives you the ability to deploy the best digital evidence management system based on your specific needs and budget, and you retain complete ownership of all your evidence and metadata.
