Enable better learning experiences

JABRA EDUCATION SOLUTIONS

Reinvent the classroom

Reinvent the classroom

The landscape of learning has changed dramatically, with schools discovering new ways to connect teachers and students wherever they are.

Flexible technology plays a significant role in this transition, enabling institutions to offer a mix of in-person, online, and on-demand learning. So however far students are from the classroom, they can still join the class – without time, distance, or outside interruptions like snow days – holding them back.

That's where Jabra comes in. We develop innovative audio and video devices that are designed to be intuitive as well as intelligent, making it easy to get to grips with any new equipment without the need for additional support. Which frees people up to focus on more important matters, like what the class is covering today.

Take the hassle out of technology.

Hybrid learning in the classroom

Jabra offers a range of solutions for the classroom that keep everyone engaged and in the picture with our signature Panoramic-4K quality, 180° field-of-view, and premium 2-way audio.

Choose PanaCast 50, our revolutionary video sound bar, for an outstanding all-in-one experience. Or pair the Jabra PanaCast with a Jabra Speak speakerphone for a flexible, portable solution.

SPEAK 510

PANACAST

Case study

Sarasota County school district in Florida installed Jabra PanaCast cameras and Speak 510 speakerphones in 2,500 classrooms across the district – from Pre-K through 12th Grade and Technical College.

“We’re excited for what this technology means for teachers, and how it allows them to seamlessly, and more meaningfully connect with remote students.”

Joe Binswanger, Director of Information Technology
at Sarasota County Schools, FL, USA

“

Teaching from home

Jabra solutions enable teachers to deliver effective and engaging lessons from home. Choose from either the PanaCast or PanaCast 20 video solutions, with outstanding 4K HD video quality for immersive lessons. Add either a Jabra Speak2 speakerphone or, if background noise is an issue, try an Evolve2 noise-cancelling headset for professional-sounding audio.

EVOLVE2 30

PANACAST 20

PANACAST

SPEAK2 75

Case study

“

The Catholic Academy of Sussex County installed Jabra PanaCast cameras and Speak 750 speakerphones.

“Hybrid learning definitely changed the landscape for teachers and students. Our goal was to find a technology that creates an engaging experience for everyone. When we found Jabra’s solutions, and its easy plug-and-play camera and compatible speakerphone, it was a no-brainer. We were also impressed with the portability of the speaker. The quality is far superior to what teachers had on their laptops.”

Brian Vohden

The Catholic Academy of Sussex County, Sparta, NJ, USA

Students in class

Whether students need headsets for language studies, quiet focus time in class, or dialing in from home, the Jabra Biz 1100 EDU headset is a great choice.

Hej. (That's 'hi' in Danish)

We're Jabra, and we've been engineering technology that makes life look and sound better for over 150 years. And you? Well, you might be running a million-dollar account from your kitchen (or café, or school run, or just about anywhere really). Or running your first 5k with a pair of expertly engineered earbuds. Or running a project via video, beaming yourself from a Toronto armchair to a Tokyo boardroom.

Whatever you've got going on, we've got you. With advanced, intelligent video technology. And incredible sound quality that makes your voice and your music sound better than ever. All designed to bring life and work wonderfully in tune.

Jabra. Technology for life's new rhythm.

The Jabra GN logo is centered within a yellow rounded rectangle. It features the word "Jabra" in a bold, sans-serif font, followed by "GN" in a smaller, lighter font. Below the text is a horizontal line with a series of small dots underneath it.
