

Meet right out of the box

Industry-leading audio and video solutions, complete with accessories, that instantly let you meet anywhere.

*Laptop not included

Start any meeting, anywhere, right out of the box with: Jabra PanaCast, Speak 710, USB-Hub and Table Stand. Now available all together. Collaboration has never been so easy.

JABRA PANACAST

High quality collaboration requires high quality video, no matter where you are.

Jabra PanaCast features three 13-megapixel cameras giving 180° Panoramic-4K coverage and patented real time video-stitching technology to see everyone in the room yet allowing you to make the most of the space. Intelligent Zoom detects where people are while Vivid HDR automatically optimizes video quality.

Easy, plug-and-play video collaboration for your teams and compatible with all leading Unified Communications (UC) platforms means productive meetings anywhere.

JABRA SPEAK 710

Engineered to be the best sound in a professional portable speakerphone*, the Jabra Speak 710 allows you to be heard from anywhere.

An omni-directional microphone with 360-degree pick-up has a portable design that gives you the flexibility to take calls and collaborate with your teams.

Jabra Speak 710 integrates seamlessly with Jabra PanaCast for an experience that's fast, and easy, while plug-and-play connectivity lets you focus on what matters.

JABRA ACCESSORIES

The meeting-in-a-box comes complete with a couple of accessories.

Jabra PanaCast Table Stand enables Jabra PanaCast to be used as a free-standing unit; giving users the freedom to join a meeting from multiple locations.

Jabra PanaCast USB Hub, a stationary in-room accessory, simplifies cable management so teams can get straight to business. All necessary inputs and outputs are provided to streamline media management, so users only need to plug in one cable to start their meeting.

The only accessories your meeting needs.
