

Juniper recognized as a Leader for the third time in a row in the 2022 Gartner® Magic Quadrant™ for Enterprise Wired and Wireless LAN Infrastructure.

A Leader for the third time in a row, placing Furthest in Vision, Highest in Execution for 2022.

We believe this recognition comes from Juniper's proven strengths in helping customers to simplify operations with automated fabrics, AI-driven insights and built-in security.

Built on a common operating system and instrumented to be AI-driven, our solutions let you apply consistent, end-to-end policies wherever your applications and data reside. Let us help you to achieve your vision with our open-standards, intent-based solutions.

Customer Experience Focused

- Service levels bring insight and great experience
- Patented BLE with virtual beacons
- Real-time anomaly detection and risk mitigation

AIOps and Support

- AI-driven assistant (Marvis) simplifies IT tasks through conversational interface
- Client-to-cloud root cause with proactive dynamic packet capture
- AI-driven support and self-driving actions

Modern Cloud

- Modern microservices architecture
- Weekly pushes with no downtime
- 100% programmable (API driven)

Try our Campus in a Box risk free.
