

# Kingston IronKey Hardware-Encrypted Drives – Security Solutions

## Manage Mobile Data Threats and Reduce Risks

Your company is at risk whenever employees use their own drives to travel with data and take work home. Protect sensitive data by standardising on an hardware-encrypted Kingston® IronKey™ USB Flash drive or external SSD. With several models and capacities to choose from, there's one that's ideal for your company's needs, whether you're looking for mobile data security or have to comply with data-at-rest or data-in-transit directives, laws, standards or global regulations, such as GDPR or CCPA.

All IronKey drives are covered by a five-year warranty (IronKey Vault Privacy 80 ES and IronKey Keypad 200 Series have a three-year warranty; IronKey D500SM has a two-year warranty), free technical support and legendary Kingston reliability. All drives below are 100% hardware-encrypted to meet the strictest security policies. For more information, go to [kingston.com/ironkey](http://kingston.com/ironkey)
