Logitech Video Collaboration Solutions for Microsoft Teams include everything you need for an efficient, productive meeting whether in the conference room or at your desk.

**ROOM SOLUTIONS**
Transform any meeting space with Logitech and Microsoft Teams. Available in small, medium, and large configurations, Logitech Room Solutions for Microsoft come pre-configured with a Microsoft-approved small form factor computer, a Logitech conferencecam with RightSense™ technologies, a PC mount with cable retention, and the Logitech Tap touch controller.

With in-box and online resources that show how components fit together, and Logitech JumpStart for additional access to resources and deployment experts, it has never been easier to deploy Microsoft Teams throughout the workplace.

**PERSONAL WORKSPACE SOLUTIONS**
Logitech Personal Video Collaboration Kits for Microsoft turn any personal workspace into a focused collaboration space. The Zone Wireless Bluetooth® headset is paired with the Brio, and Zone Wired is paired with the C925e webcam in pre-configured kits. Both are fully plug-and-play compatible with Microsoft Teams, making them as easy to deploy as they are to use. These kits empower any size organization with tools to foster a culture of employee engagement.
UNLEASH THE POWER OF TEAMS

Bring collaboration to life with Logitech Room and Personal Workspace Solutions to take the Teams experience to the next level.

MEET ANYWHERE
Start a meeting at your desk, in a meeting room or even at a coffee shop. Teams of 10 or 10,000 can meet in one place, no matter how many places they’re in.
With one-touch join, you can easily hear and see your colleagues with Logitech solutions for Microsoft Teams.

COLLABORATE EASILY
Collaborating through video allows you to view and edit documents in real time with the added benefit of picking up on the body language and facial expressions of your colleagues.
Teams makes it easy to collaborate no matter where you are.

BE HEARD AND SEEN
Not in the meeting room? Still be in the know. With Logitech Video Collaboration, you can “be there” even when you’re not. Logitech solutions provide a modern, consistent, video-first user experience for collaboration from desktop to huddle rooms to boardrooms.

Certified for Microsoft Teams
