

WE GET THE WAYS GENAI CAN TRANSFORM YOUR DIGITAL ORGANIZATION

CDW Digital Velocity Intelligent CX

At CDW, we prioritize valuable insights and learning from peers and technical leaders in Generative AI. Join us for an exciting guided tour of Azure OpenAI services, where we'll teach you the fundamentals, explore real-world applications, and provide interactive prompt engineering with Azure Chat Playground. In just 2 hours, gain invaluable insights into ML, AI, and GenAI. Your investment is short and sweet, but the knowledge gained is invaluable.

CDW's Data and AI/ML Practice can help you achieve:

Operational Efficiencies

Agility

Revenue Enhancement

A No Cost Azure OpenAI Experience

You will leave this crash course feeling knowledgeable on a whole host of topics that are essential in today's tech space. With this foundation under your belt, you will be ready to create intelligent solutions that solve complex problems quickly.

AI/ML and Generative AI - We'll start by exploring the key concepts of AI/ML and Generative AI. We'll explain the difference between the two and give you a clear understanding of how they are used in real-world applications.

Azure Cognitive Services - In this section, we'll provide an overview of Azure Cognitive services. You'll learn how Azure Cognitive services work and how they can be used with Azure OpenAI.

Live Demonstration of Azure Chat Playground - One of the best ways to learn is by doing! We'll guide you through the Azure Chat Playground, providing a live demonstration and interactive activities to enhance your understanding of its functionality.

Exploring Azure Cognitive Search and OpenAI - We'll then work with Azure Cognitive Search and OpenAI. We'll also providing interactive activities so you can better engage with the experience.

Wrap Up - In conclusion, the main concepts and skills covered in the course will be summarized and we'll provide a Q&A session so you can ask any questions you may have. Lastly, we'll provide you with next steps so you can continue to learn and work with CDW, Azure Cognitive services and OpenAI.

CDW Gets Data and AI/ML

CDW is the most technical Solutions Integrator in the industry. With two of the world's 20 Google Cloud Fellows on staff, nearly 250 engineers with expertise spanning from Certified Kubernetes Architects to Cisco DevNet Professionals, and a full-stack software development practice, CDW is your technical services partner when results and velocity matter.

- Awarded "Cisco Global Ecosystem Partner of the Year" in 2019
- A contributing member of the Cloud Native Computing Foundation
- Google Cloud Premier Partner
- HashiCorp Ninja Partner
- Hundreds of Fortune 5000 customers globally
- 250-plus engineers focused on Software-Defined Infrastructure, Hybrid & Multicloud Architectures, Cloud-Native Software Development, and DataOps and AI/ML

Due to exceptionally high demand, inquiring organizations need to be "Microsoft Managed Accounts" in order to qualify for this engagement
