

WE GET IT'S NOT EASY KEEPING UP WITH MICROSOFT AND GOOGLE UPDATES.

CDW Amplified™ Collaboration
CDW Education Collaborative

The CDW Education Collaborative is a forward-thinking community of K-12 districts looking for insights and best practices for administering and mastering Microsoft 365 Education and Google for Education ecosystems. The Education Collaborative provides a one-stop shop to access useful content and helpful advice from fellow education IT professionals, CDW professionals and Microsoft and Google insiders.

- **Community and Connection:** Members gain access to a vibrant online community to connect with peers, share insights and receive support post-Microsoft implementation.
- **Education and Empowerment:** The Collaborative offers a monthly calendar of events, including product updates, how-to workshops, office hours and networking events.
- **Time-saving and up-to-date content:** The Collaborative distills the latest technological changes and impacts on districts into easily understandable and actionable information, saving staff time and resources on extensive investigations.

CDW Education Collaborative can help you achieve:

Operational Efficiencies

Increased Performance

Reduced Risk

Orchestrating the Right Solution

The CDW Education Collaborative offers a comprehensive suite of resources and features tailored to the unique needs of K-12 districts. It includes access to a vibrant online community, monthly events, expert advice and content curation.

Main Characteristics:

- **Collaborative Hub:** Connect and learn from education IT professionals.
- **Monthly Events:** Stay current with product updates, workshops and networking.
- **Content Curation:** Timely insights on technological changes and their impacts.
- **Access to Experts:** Gain advice from CDW professionals and industry insiders.

Advantages and Benefits:

- **Streamlined Collaboration:** Effortlessly connect and collaborate with peers.
- **Enhanced Learning Experiences:** Stay ahead with the latest EdTech trends.
- **Savings on Time and Resources:** Access actionable insights, saving time on research.
- **Confidence in Deployment:** Receive expert guidance for successful implementations.
