

# Safeguarding your security defense is critical to your organization.

## Implementation of Microsoft 365 Defender Security

In today's digital landscape, security is paramount. Our Implementation of Microsoft 365 Defender Security addresses the customer's pressing challenge of safeguarding sensitive data and assets. By fortifying defenses, detecting threats and streamlining security management, we ensure peace of mind and uninterrupted business continuity. With our service, customers can anticipate reduced risks, enhanced compliance and fortified cybersecurity posture.

Implementation of Microsoft 365 Defender Security can help you achieve:

### Orchestrating the Right Solution

At CDW, we understand the paramount importance of safeguarding your organization's data and infrastructure in an ever-evolving threat landscape. That's why we offer our best-in-class service for the Implementation of Microsoft 365 Defender Security. This comprehensive service is designed to fortify your digital environment through the integration of various Microsoft Defender products, ensuring a robust and cohesive defense strategy.

What does the service include? Our Implementation of Microsoft 365 Defender Security service encompasses the deployment and configuration of the following Microsoft Defender products:

- Microsoft Defender for Cloud Apps
- Microsoft Defender for Identity
- Microsoft Defender for Endpoint
- Microsoft Defender for Cloud
- Microsoft Sentinel
- Microsoft Defender for Servers
- Microsoft Defender for Office 365

#### Main Characteristics:

- **Seamless integration:** We ensure the harmonious deployment and configuration of these Microsoft Defender products to create a unified defense system.
- **Tailored solutions:** Our approach is customized to meet your organization's specific needs, aligning your security strategy with your unique risk profile.
- **Proactive threat mitigation:** Our service goes beyond protection to provide continuous monitoring and threat detection, enabling swift incident response.
- **Compliance assurance:** We help you adhere to regulatory standards and industry best practices, mitigating compliance risks.

#### Advantages and Benefits:

- **Enhanced security posture:** CDW's expertise in deploying Microsoft 365 Defender Security solutions means improved protection against a wide array of cyber threats.
- **Operational efficiency:** Integration and automation streamline security processes, reducing operational overhead.
- **Real-time insights:** Our implementation empowers your organization with real-time threat intelligence, enabling informed decision-making.
- **Peace of mind:** Knowing that your digital assets are safeguarded allows your team to focus on core business activities.

## CDW + MICROSOFT

At CDW, our partnership with Microsoft extends far beyond mere certification.
