Amazing happens when AI generates real business impact.

Generative AI is changing the way that your employees work. Not only can it make your organization more productive, but it also has many implications for your business. CDW and Microsoft can help you navigate these changes to deliver maximum value.

Our solutions can help you achieve:

Defined goals

Faster adoption

A comprehensive plan

Finding the Right Solution

Within this workshop, CDW will guide you through a comprehensive plan for envisioning, enacting and enabling Microsoft Copilot technology within your organization. Through our AI Strategy Workshop, our experts will:

• Define your current needs; or, if needed, help you collect information to build a business case.

• Identify key roadblocks and challenges along the entire lifecycle of your plan, ensuring that every facet is defined and scoped.

• Create recommendations for improving utilization and enablement so that Microsoft Copilot provides the most "Active Hours Returned" for you and your employees.

Why CDW

We help clients leverage technology to empower their employees, serve their customers and create exceptional experiences. Our team is uniquely designed to provide measurable, meaningful outcomes for your organization. CDW's combination of industry experience, program expertise, professional services capabilities, and scale will allow your to get where you want to be quickly.

Begin Your Journey with Microsoft 365 Copilot

Whether you're a business leader charting the path of AI for your organization, an IT leader architecting the technology, or a business user building your new way to work, you need to understand the big picture with Microsoft 365 Copilot. Our Workshop is designed to give you the overview you need to understand Microsoft 365 Copilot and plan your next steps.

Our Workshop engagement is two hours of time spent with you and provides:

• High-level overview of what to expect with Microsoft 365 Copilot and Microsoft's approach to responsible AI.

• Definition of up to 3 best opportunities for effective use cases and personas for Microsoft 365 Copilot.

• A gap analysis of your technical and licensing preparedness for Microsoft 365 Copilot.

• Receive a high-level roadmap for the next steps on your journey.

Design
Using tools, data, and years of expertise, we can make specific recommendations for our customers.

Orchestrate
Our expert engineering teams implement the right technology and ensure it works the first time.

Manage
We help customers get the best results from their solution and fully realize the expected value.
