MICROSOFT OFFICE 365 BEST PRACTICES ASSESSMENT

GET THE MOST OUT OF YOUR OFFICE 365 INVESTMENT WITH CDW BEST PRACTICES

Organizations are always on the hunt for ways to validate their Office 365 subscription to ensure it follows industry best practices. Additionally, at the same time they would like to minimize common pitfalls that plague most cloud transitions. Office 365 offers a scalable and flexible cloud platform to provide Software as a Service (SaaS) on demand without having to invest in hardware or software.

WHAT CAN CDW DO FOR ME?

The Microsoft Office 365 Best Practices Assessment offering will assist your organization in validating your existing Microsoft Office 365 deployment to document and ensure the current environment has been configured to industry best practices. This engagement will assist in sharing/communicating relevant best practices and providing high-level knowledge transfer by demonstrating the best way to maximize the benefits of utilizing Microsoft Office 365.

A Microsoft Office 365 Best Practices Assessment will review the following:

- Office 365 Tenant configuration
- Identity and Authentication layout
- Security Posture
- Compliance and Governance rules/policies
- Exchange Online and Hybrid Coexistence
- SharePoint Online/OneDrive For Business
- Microsoft Teams and Modern Groups
- Message Center and Change Management

CDW will present findings and recommendations and can assist with any design, remediation or implementation as needed.
