Accelerate digital transformation in learning

Microsoft 365 for Education provides a comprehensive platform for teaching, learning, and work, empowering students, educators, and IT to do more.

As the demands on education increase...

20% of students have learning, attention, or neurodiversity challenges[1]

74% of teachers say staff shortages forced them to fill in for colleagues[2]

85% of jobs college students will have in 2030 have yet to be invented[3]

13% of schools are infected by ransomware, the most of any sector[4]

70% of schools report inadequate IT staffing resources[5]

Microsoft 365 enables schools to do more with less

Improve student success for all learners

Work, teach, learn and collaborate smarter

Build skills for the workforce of tomorrow

Keep school data and devices secure

Efficiently manage school technology needs

Which SKU is right for you?

A1
Office 365 A1

Free online Office learning and productivity tools
