

CDW SERVICES:

MICROSOFT AZURE GOVERNANCE WORKSHOP

PLANNING YOUR AZURE ENVIRONMENT FOR GOVERNANCE

You need to reduce your capital expenses and minimize the endless addition of servers, storage and IT infrastructure to support business demands. Microsoft Azure Infrastructure as a Service (IaaS) provides a scalable and flexible platform to provide a server infrastructure on-demand without investing in hardware or software.

The Microsoft Azure Governance Workshop service can assist your organization in creating a plan for Azure cloud governance. This workshop, based upon Microsoft Azure Governance principals, takes an in-depth look at the people, processes and technology currently in place and assists with building a framework that makes it easier for IT to support business needs while still providing the flexibility to use Microsoft Azure.

WHAT CAN CDW DO FOR ME?

A Microsoft Azure Governance Workshop will cover the following:

- Implementation of policies, processes and procedures
- Account provisioning
- Subscription controls
- Role-based access controls
- Resource management
- Policies and auditing
- Resource tracking
- Critical resource control
- API access to billing information
- Networking controls
- Security configuration, monitoring and alerting

CDW will present findings and recommendations and can assist with implementation as needed.

THE BENEFITS

- CDW will help your organization understand how to be in control of your Azure environment utilizing proper governance best practices.
- CDW consultants are experienced in assisting in designing and building Azure.
- Gain knowledge and insight on the best use of Azure according to your business goals and requirements.
- Learn how other customers are using Azure to cut costs and be more agile.

WHY CDW?

CDW is uniquely qualified to design IT solutions that remove complexity and unnecessary costs from your organization. Our experts become part of your team providing the support you need, when and where you need it.

We can help you navigate Microsoft's robust array of solution offerings, including Microsoft Azure Storage. CDW is an end-to-end provider of cloud applications, solutions and services in public, private and hybrid cloud environments. Based on your business demands, we can help you plan, deliver and manage a flexible cloud solution tailored to your needs. We offer best-of-breed providers, risk mitigation strategies and dedicated, personalized expertise to deliver economic and operational benefits.

We get Microsoft Azure. And we can share our knowledge with you, so your organization can spend less time managing software and more time putting it to work.
