

# WE GET THE FINANCIAL IMPACT OF MAINTAINING LEGACY APPLICATIONS.

CDW Amplified™ Hybrid Cloud Web App Modernization Workshop for Azure

Application Modernization can transform your organization. By moving your on-premises or legacy applications to cloud services, your organization can leverage the scalability, reliability and performance of Azure. Let Microsoft's Azure App Services manage the infrastructure while you create enterprise-ready web and mobile apps for any platform or device in the programming language of your choice.

Web App Modernization Workshop for Azure can help you achieve:

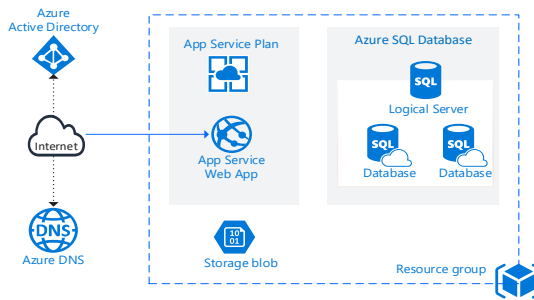

-  Agility
-  Increased Performance
-  Reduced Cost

## Orchestrating the Right Solution

CDW's App Modernization Workshop for Azure guides your organization on identifying applications that are ideal candidates for modernization and deployment to Microsoft's Azure App Services. We'll help you map deployment and development decisions based on your needs, budgetary constraints and IT infrastructure.

This workshop provides an Azure App Services Overview and Environment Assessment. It helps you:

- Set up Azure App Services Proof of Concept
- Identify applications to deploy on Azure
- Deploy SQL or MySQL Database services
- Integrate your application development process
- Learn best practices on deployment, management and integration
- Provide a roadmap for App Modernization

## CDW GETS MICROSOFT AZURE

CDW is an end-to-end provider of cloud applications, solutions and services for public, private and hybrid cloud environments.

We are uniquely qualified to design, deliver and manage a flexible solution tailored to your needs. CDW will help you adopt and integrate Azure securely and efficiently.

We have a long-standing, award-winning relationship with Microsoft that we extend to our customers. We get Azure!

CDW's full lifecycle of Services can support your organization no matter where you are on your journey
