

CDW SERVICES:

MICROSOFT TEAMS ASSESSMENT AND JUMPSTART

GET THE MOST OUT OF YOUR OFFICE 365 AND MICROSOFT TEAMS INVESTMENT

Schools are considering the Microsoft Teams collaboration platform unlike any other technology in recent history. For many schools, the path forward or positioning Microsoft Teams within the district or classroom can be quite daunting. Microsoft Teams brings a tremendous opportunity to increase a district's collaboration agility with a multi-generational workforce. This opportunity requires an internal evaluation of how Microsoft Teams can fit within your school and the associated critical decisions to maximize success.

WHAT CAN CDW DO FOR ME?

The Microsoft Teams Assessment and Jumpstart can dramatically increase your faculty's comfort and understanding of Microsoft Teams with a focus on maximizing its effective use and adoption. This engagement works with curriculum directors and key leadership on the industry best practices and how best to utilize Microsoft Teams as an innovative collaboration and productivity platform. This engagement is best positioned for schools that have yet to deploy Microsoft Teams or have minimally deployed a single Office 365 workload. It is not intended to be a complete design or planning solution.

The engagement will be broken up into several segments, during which we will:

- Assess the school district's ability to leverage this innovative technology from Microsoft
- Identify desired business outcomes through Microsoft Teams
- Gain a holistic view of your future state by reviewing capabilities across security, teamwork, meetings and change management
- Review critical areas where the faculty or IT will need direction or deeper assistance to ensure success
- Deliver an action plan which will assist you on your transformation journey
- Provide a single proof of concept (POC) team/channel for the school or faculty to use

THE BENEFITS

- Understand what success looks like for you and define your success criteria
- Identify the unique vision, needs and goals of your district
- Build deeper engagement with your school stakeholders or decision makers
- Demonstrate "art of the possible" as it applies to your learning environment
- Support your digital transformation journey for internal communication and collaboration
- Actionable roadmap for Microsoft Teams
- Adoption and Change Management (ACM) enablement

WHY CDW?

CDW is uniquely qualified to design IT solutions that help remove complexity and unnecessary costs from your organization. Our experts become part of your team providing the support you need, when and where you need it.

We can help you navigate Microsoft's robust array of solutions, including Office 365. CDW is an end-to-end provider of cloud applications, solutions and services in public, private and hybrid environments. Based on your business demands, we can help you plan, deliver and manage a flexible solution tailored to your needs. We offer best-of-breed providers, risk mitigation strategies and dedicated personalized expertise to deliver economic and operational benefits.

We get Microsoft Office 365. And we can share our knowledge with you, so your organization can spend less time managing software and more time putting it to work.
