

CDW SERVICES:

MICROSOFT ENTERPRISE MOBILITY PILOT

SIMPLIFY YOUR ABILITY TO WORK ANY WHERE, ANY TIME

As more and more users become mobile and are using a wider variety of devices, applications and documents need to keep up. How do you manage these devices while providing secure and reliable access to applications and data? The Microsoft Enterprise Mobility solution helps provide easy, secure access to any device, no matter where someone might be. CDW's Microsoft Enterprise Mobility Pilot may consist of the following components:

Microsoft Intune

- Hardware and software inventory
- Software distribution
- Patch management
- Endpoint protection
- Settings management
- Mobile device management
- Reporting and compliance
- Windows autopilot

Azure Active Directory Premium

- User authentication
- Self-service password reset
- Application access

Azure Information Protection

- Document management
- Policy security
- Documentation classification

WHAT CAN CDW DO FOR ME?

CDW will help you with a Microsoft Enterprise Mobility Pilot to be able to successfully deploy a complete solution, which includes:

- Planning and designing a Microsoft Enterprise Mobility solution to support a production-ready deployment.
- Gathering business and technical requirements to ensure a successful project.
- Determining a deployment roadmap of Mobility features based on requirements.
- Installation and configuration of Microsoft Intune, Azure AD, Azure Information Protection and more if needed.
- Configuration of the Mobility components to integrate with your existing environment.
- Deployment of Intune agents, AIP Viewers and components to allow users and devices to use Microsoft Enterprise Mobility + Security (EMS).
- Knowledge transfer on proper administration and configuration of Mobility components.
- Configuration of reporting, security roles and end-user self-service portal.
- Build and configure Windows Autopilot to automate deployment of Windows 10 devices.

THE BENEFITS

- Integration of multiple pieces to work seamlessly together.
- Knowledge transfer on best practices to deploy and administer Intune, AIP and Azure AD.
- Utilize features to maximize the benefits of EMS.
- Accelerate or improve client administration, deployment and reporting.

WHY CDW?

CDW is uniquely qualified to design IT solutions that remove complexity and unnecessary costs from your organization. Our experts become part of your team providing the support you need, when and where you need it.

We can help you navigate Microsoft's robust array of solution offerings, including Enterprise Mobility + Security. CDW is an end-to-end provider of cloud applications, solutions and services in public, private and hybrid cloud environments. Based on your business demands, we can help you plan, deliver and manage a flexible cloud solution tailored to your needs. We offer best-of-breed providers, risk mitigation strategies and dedicated, personalized expertise to deliver economic and operational benefits.

We get Microsoft. And we can share our knowledge with you, so your organization can spend less time managing software and more time putting it to work.
