QuickStart for Microsoft 365 Copilot

AI promises to unlock new capabilities and increase speed for people using productivity platforms like Microsoft 365. But it's not automatic; despite the potential benefits, employees still struggle to integrate AI into their daily workflows. And IT has to ensure productivity gains don't come at the expense of good security posture.

We created QuickStart for Microsoft 365 Copilot for organizations early in their Copilot journey and are searching for a way to spark interest and create momentum for safe and effective AI adoption. The QuickStart — guided by our experienced team — is a great way to explore Copilot if you're not ready to subscribe just yet.

QuickStart for Microsoft 365 Copilot can help you achieve:

Finding the Right Solution

Through this engagement your organization will be enabled to:

 **Get Ideas for What's Possible**
Start your journey with an interactive discussion on what's possible and what you need to know about Copilot: AI agents, Copilot Cowork, Copilot in apps, prompting techniques and more.

 **Build Copilot on a Strong Security Posture**
Get a handle on the next steps you'll need to build a strong security posture around Microsoft 365 Copilot.

 **Spark Interest to Gain Momentum**
We'll conduct three Copilot training sessions with your first group of early learners. If you're a CDW CSP subscriber, we'll also sustain their learning with online training via our Inscape platform. Plus you'll receive a set of communications materials you can use on day one.

 **Get Hands-On with Microsoft 365 Copilot**
Fluency with AI tools isn't a spectator sport — your people need hands-on exposure. We'll activate trial licenses (Microsoft-funded engagements only) or your first Copilot paid subscription (up to 10 users).

CDW's full lifecycle of Services can support your organization no matter where you are on your journey
