

ENABLE YOUR ORGANIZATION FOR THE FUTURE WITH GENERATIVE AI.

CDW Amplified™ Collaboration Readiness Workshop for Microsoft 365 Copilot

Generative AI has unlocked a new frontier in productivity, promising a competitive edge for those organizations that can harness it over those that can't. However, achieving positive results with new capabilities such as Microsoft 365 Copilot isn't reliant solely on a technical implementation. It requires new thinking around skills for your people and how you organize, use and protect content. We can help you organize toward that success with Microsoft 365 Copilot.

A Readiness Workshop for Microsoft 365 Copilot can help you achieve:

-  **Agility**
-  **Faster Innovation**
-  **Increased Performance**

Begin Your Journey with Microsoft 365 Copilot

“First seek to understand” is how the saying goes. Whether you’re a business leader charting the path of AI for your organization, an IT leader architecting the technology or a business user building your new way to work, you need to understand the big picture with Microsoft 365 Copilot. Our Readiness Workshop is designed to give you the overview you need to understand Microsoft 365 Copilot and plan your next steps. This engagement will help you to:

- Frame your understanding on what Microsoft 365 Copilot is, and what it can do within the context of your organization.
- Showcase the intelligence added to employee experiences by unleashing creativity, unlocking productivity and leveling up skills.
- Define scope, identify stakeholders and gather information on key business scenarios.
- Understand the scope of technical and licensing prerequisites standing in your way, what they mean for Microsoft 365 Copilot and how to address them.
- Complete and review readiness assessment and guidance.
- Develop a plan to implement recommendations based on prioritized scenarios.
- Define next steps and timeline to develop and implement the solution.

This engagement is conducted interactively with your organization over a five-day period and provides:
