We understand the AI-smart future of Azure OpenAI.

Azure OpenAl Two-Day Primer

Join us for a two-day interactive session where you'll learn the ins and outs of Azure Cognitive Services, Azure OpenAI Service and Azure OpenAI Studio — all of which are key ingredients for success when it comes to leveraging AI for your organization. You'll also be exposed to CDW's solution accelerators and workshops as well as gain hands-on experience creating prompts related to various scenarios.

CDW's Azure OpenAI Two-Day Primer can help you achieve:

The Opportunity to Quickly Increase Exposure

Looking for a way to leverage one of the most influential technologies of the 21st century to grow your organization? Join us for a quick two-day interactive session to learn about Azure Cognitive Services, Azure OpenAI Service and Azure OpenAI Studio. This engagement is designed to allow all participants to get involved and gain a bit of experience with Azure's next-generation products.

In this workshop, you will:

- Learn how to create and refine prompts for various scenarios using hands-on exercises
- Discover how to leverage Azure OpenAl Service to access and analyze your organization's data

Our two-day interactive engagement is the perfect way for everyone to dive into this influential technology and gain an experience. This workshop is geared for individuals of all technical backgrounds, providing hands-on exercises to help familiarize participants with these cutting-edge technologies. Plus, you'll gain insight into CDW's solution accelerators and workshops used for deploying use cases quickly and efficiently.

CDW's full lifecycle of Services can support your organization no matter where you are on your journey
