CDW Professional Services

M&A event on your mind? Tenant Migration for Microsoft 365 can help.

Tenant Migration for Microsoft 365

It's a story we've heard many times. Your organization announced a merger, acquisition or divestiture event, and your team has been tapped to migrate data between Microsoft 365 tenants and your on-premises Active Directory forests. Oh, and could you make sure there's minimal disruption to user productivity, maintain proper security posture and have it done yesterday?

That's where we come in! Mergers and acquisitions (M&A) involving Microsoft 365 require intricate planning, skilled technological acumen, great migration tools and proven experience. We have all of those plus a unique set of software tools found nowhere else.

Tenant Migration for Microsoft 365 can help you achieve:
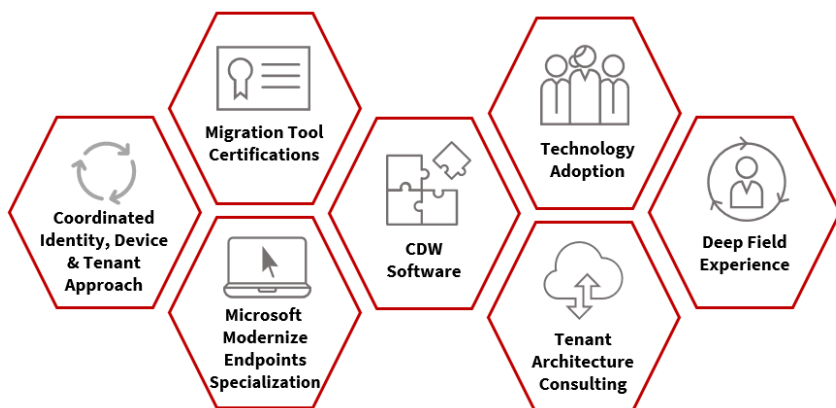

Reduced Risk

Cost Reduction

Agility

CDW's Advantage for Microsoft M&A

We've seen many organizations try to tackle these complex projects on their own, but incomplete planning or inability to react to unexpected challenges leads to a poor user experience. And that can cost your organization goodwill and stall integration momentum.

CDW has the experience, methods and software expertise necessary to ensure success with high-profile M&A projects. Here's why:

Migration Tool Certifications

Coordinated Identity, Device & Tenant Approach

Microsoft Modernize Endpoints Specialization

CDW Software

Technology Adoption

Tenant Architecture Consulting

Deep Field Experience

We're ready to tackle the tough stuff. Multi-tenant organizations, coexistence strategies, re-architecting tenants, hybrid environment transition, GOV clouds and more.

Have a small environment on your plate and no time? We have turnkey migration options to relieve the burden of migrating small environments, too!

CDW's full lifecycle of Services can support your organization no matter where you are on your journey

Design → Orchestrate → Manage

On-Premises → On-Journey → Cloud-Based

CDW + MICROSOFT

We understand Microsoft and we can share our knowledge with you so your organization can spend less time managing software and more time putting it to work.

Large global CPG manufacturer Acquisitions
- 9,000 users
- 2 source tenants

Large U.S. medical equipment manufacturer Acquisition
- 10,000 users
- 1 source tenant

Divestiture
- 1,800 users
- 1 source tenant

State government Multi-Tenant Organization
- 800 users
- 1 tenant

CDW

Understanding Your Tenant Data with CDW TenantScan

All tenant data isn't created equally. What makes sense to migrate or leave behind? What's going to be easy and what will be hard? You have better things to do than wade through admin portals and reams of data.

That's why we created CDW TenantScan, two applications included with every tenant migration engagement that discovers tenant and on-premises Active Directory quickly and accurately and then scores it to help you focus attention on what matters most during your migration.

What We Do

Here's what you can expect from our skilled engineers, adoption specialists and project managers:

Service	Included
Planning: We're focused on helping you plan the best possible user experience infused with proactive communication, technology adoption and project management each step of the way.	✓
Build and Test: We'll deploy a team of subject matter experts to work with you on remediating source environments, configuring target tenants, building migration tools and testing the whole process before we move a single user, tackle device migration and on-premises Active Directory.	✓
Migration: The heavy lifting is no problem for us. We'll execute the migration, provide level 2 engineering support and help you communicate and train for a smooth transition.	✓
Support: We know where the pitfalls are. Let's use that experience to plan and support your end users in their post-migration environment. CDW has solutions to fit all customer needs, including extending your help desk or providing long-term support.	✓
