

CDW SERVICES:

MICROSOFT 365 SECURITY IDENTITY PROTECTION

SECURE USER ACCESS BY PROTECTING IDENTITY

Identity is the cornerstone of limiting access to data, apps and resources. It is becoming increasingly important to be able to manage users' access quickly and accurately. Most threats and vulnerabilities utilize identities to infiltrate an organization, probing for weaknesses and valuable data. Microsoft 365 provides numerous tools to provide additional layers of security and also tools to identify and protect access in real time.

Identity Protection will include the steps necessary to understand your requirements and develop the deployment plan just for you. There are many possible options which can include a variety of tools and techniques.

Some of the products and tools covered in Identity Protection include:

- Current Security Controls
- Azure Sentinel
- Cloud App Security
- Azure Active Directory Premium
- Azure Advanced Threat Protection
- Azure Active Directory Identity Protection
- Identity Governance

WHAT CAN CDW DO FOR ME?

CDW will help you with a Microsoft 365 Identity Protection Pilot to be able to successfully deploy a complete solution, which includes:

- Evaluating current environment and security requirements
- Deep dive into Microsoft 365 and features that could improve security of accounts
- Plan and design an Identity Protection solution to support a production-ready deployment
- Gather business and technical requirements to ensure a successful project
- Installation and configuration of Azure Active Directory Premium, Cloud App Security, Azure Advanced Threat Protection and more if needed
- Configuration of the identity components to integrate with your existing environment
- Knowledge transfer on proper administration and configuration of Identity Protection
- Develop a roadmap plan on adoption of security features of Microsoft 365

THE BENEFITS

- Integration of multiple pieces to work seamlessly together
- Knowledge transfer on best practices to deploy and administer Identity Protection
- Utilize features to maximize the benefits of Microsoft 365
- Accelerate or improve administration, deployment, investigation and remediation

WHY CDW?

CDW is uniquely qualified to design IT solutions that remove complexity and unnecessary costs from your organization. Our experts become part of your team providing the support you need, when and where you need it.

We can help you navigate Microsoft's robust array of solution offerings. CDW is an end-to-end provider of cloud applications, solutions and services in public, private and hybrid cloud environments. Based on your business demands, we can help you plan, deliver and manage a flexible cloud solution tailored to your needs. We offer best-of-breed providers, risk mitigation strategies and dedicated, personalized expertise to deliver economic and operational benefits.

We get Microsoft. And we can share our knowledge with you, so your organization can spend less time managing software and more time putting it to work.
