MICROSOFT WINDOWS 10 MANAGEMENT

GET STARTED THE RIGHT WAY WITH A WINDOWS 10 WORKSHOP

Windows 10 has a lot to offer organizations to improve security, mobility and manageability. There are also many new features, processes and decisions to be made to make the most out of Windows 10. Some of these decisions could have a serious impact if not done correctly, such as which edition to deploy, what security features can be taken advantage of and how you will support this new OS. The Windows 10 Planning and Design workshop walks you through making all of these decisions, while reviewing best practices and lessons learned. Get off on the right foot by understanding how Windows 10 has changed and how it may impact your infrastructure. CDW will help you make the right decisions and provide education on Windows 10 and how to take advantage of the new features:

- Windows 10 Planning and Design Workshop
- Facilitate configuration decisions against best practices
- Branch releases
