Neat devices

Neat devices address all types of meeting spaces throughout today's ever-evolving modern workplaces, people's homes and other premises. That includes open plan areas, physical meeting rooms, social zones, makeshift home offices, you name it. They are purpose-designed for Microsoft Teams and Zoom, enabling higher efficiency, well-being and social interaction to maximize the creativity, productivity and culture of your distributed teams.

Neat Bar

Neat Bar is a simple, compact, elegant meeting room device that easily mimics real-life interactions and delivers superior-quality audio and video. It works brilliantly for meeting, huddle or focus spaces for up to ten people with one or two monitors and pairs with Neat Pad, our dynamic touchscreen device for starting and controlling your Microsoft Teams or Zoom meetings.

Neat Bar Pro

Neat Bar Pro drives up to three large monitors to give you the ultimate immersive meeting experience by allowing you to simultaneously see people and content more easily. It incorporates two extreme resolution cameras and an advanced image depth sensor that combined deliver 16x zoom. Neat Bar Pro simplifies AV setups medium to large meeting rooms and pairs with Neat Pad.

Neat Board

Neat Board is the complete meeting room package in a simple, elegant, all-in-one device. Comprising a 65" multi-touch screen, a powerful audio system and a versatile wide-angle camera, Neat Board gives you a collaboration experience beyond video meetings and wireless content sharing by enabling annotations and whiteboarding. Neat Board works great for ad-hoc social interactions throughout open social spaces.

Neat Board 50

Neat Board 50 is a sleek yet powerful device designed for greater flexibility throughout your office spaces, adapting to how you need to meet or express your ideas. Its 50-inch touchscreen empowers you to move, interact, create and collaborate efficiently, all within easy reach. Paired with an adaptive stand or wall mount, Neat Board 50 allows anyone to adjust the screen up or down for optimal use and viewing.

Neat Frame

Neat Frame is a unique portrait-oriented touch-screen device ideal for your home office, company's huddle spaces, or hotdesking areas, providing a beautiful, convenient way to meet. Its superb eye-level camera gives you a more focused, naturally engaging, inclusive meeting experience. At the same time, the device frees up your laptop for other tasks, ensuring you stay completely attentive and engaged.

Neat Pad

Neat Pad is a slimline, discreet touchscreen device for starting and controlling your Microsoft Teams or Zoom meetings or checking room availability to book and reserve workspaces. Neat Pad is included with Neat Bar and Neat Bar Pro but can also be purchased separately, which is ideal if you need to place several Neat Pads outside rooms with multiple entrances.

Neat Center

Neat Center is a companion device that extends the power of other Neat devices and Neat Symmetry to ensure remote meeting attendees enjoy a consistently closer, clearer, face-on audio-visual perspective of everyone in the room. With a 360° 3x lens camera and a 16x omnidirectional mic array, Neat Center enables remote attendees to enjoy greater equity and inclusion throughout all your hybrid meetings.
