

PNY: THE GPU EXPERT

With over sixteen years experience with NVIDIA® gaming and professional GPUs, and NVIDIA's only Quadro® Authorized Channel Partner, PNY understands how selecting the right graphics board can give you the cutting edge in eSports.

PNY ESPORTS ON CDW

CDW can help you build the ultimate, reliable and fastest gaming solution with cutting edge components to ensure your team stays ahead of the competition. One of the most important components to reduce latency and speed up reaction times is the GPU. PNY GeForce® XLR8 Gaming graphics cards with extreme gaming horsepower are the ultimate gaming solution.

NVIDIA QUADRO: VISUALIZATION AND BROADCAST SOLUTIONS

Gaming today is not just about the players but the whole experience in the arena and beyond. CDW will work with your team to assess how PNY's NVIDIA Quadro professional graphics solutions can meet your in-venue needs, create sensational eSports highlight reels, drive on-air broadcast, or deliver world-class streaming to an internet audience.

NVIDIA QUADRO VIRTUAL STUDIO AND BROADCASTING

Quadro-based digital video production workflows solve the complexity of acquiring, processing and delivering content by leveraging NVIDIA graphics processing units (GPUs). Integrated into a flexible, reliable and cost-effective system, the NVIDIA Quadro Digital Video Pipeline delivers advanced capabilities from production start to finish.

SCALABLE VISUALIZATION

SEE THE BIG PICTURE WITH NVIDIA QUADRO

Easily utilize multiple HD or 4K HDR video displays across use cases ranging from desktops, to expansive digital signage walls with NVIDIA Quadro solutions.

FIND THE RIGHT PROFESSIONAL GRAPHICS SOLUTION

PNY provides cutting-edge NVIDIA technology to boost productivity for designers, engineers and architects. From stunning industrial design, to advanced special effects, to complex scientific visualization, PNY Pro offers a wide range of professional graphics solutions.

NVIDIA GEFORCE GRAPHICS

BE THE LAST ONE STANDING

Battle Royale games demand maximum FPS. Get the competitive edge you need—powered by GeForce®.

FRAMES WIN GAMES

A faster graphics card delivers higher frame rates, and higher frame rates means quicker reaction time. That's why players with better graphics cards average higher Kill/Death (KD) ratios in Battle Royale.

UNBEATABLE PERFORMANCE

240 FPS AND 144 FPS GAMING WITH GEFORCE

Fortnite, *Apex Legends* and *PLAYERUNKNOWN'S BATTLEGROUNDS* all demand the best hardware to win. The most important gear to achieve 240 or 144 FPS gaming in Battle Royale games is GeForce graphics cards.

TO BE COMPETITIVE IN eSPORTS

1080P GAMING & REAL-TIME RAYTRACING

GeForce GTX 1660 Ti 6GB Blower

EDC 5679714

GeForce GTX 1660 SUPER™ 6GB Blower
