RingCentral for Microsoft Teams

The right call for Microsoft Teams

Bring reliable, advanced calling, SMS, fax, and more into your Microsoft Teams mobile and desktop apps—no Teams Phone license required.

RingCentral for Microsoft Teams turbocharges your Teams deployment with a market-leading cloud business phone. Highly reliable telephony, advanced calling features, and market-leading analytics transform Teams into a powerful communications hub.

Key benefits

Reliability and business continuity
RingCentral's delivered more than five straight years of 99.999% reliability, making it a communications tool you can trust. You can even access RingCentral when Microsoft Teams is down, ensuring business continuity.
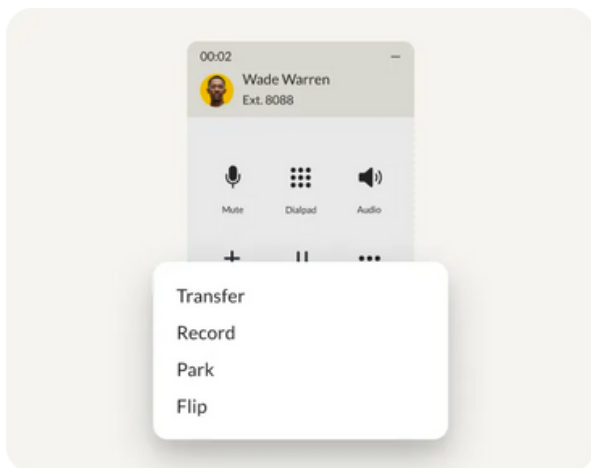

Reduced cost of ownership
Third-party research discovered that the TCO of Microsoft Teams was 22% higher than industry average. RingCentral reduces TCO by powering cloud telephony in Teams without a Teams phone license.

**Flexible, seamless integrations**
Both the embedded app and direct routing bring RingCentral's powerful cloud PBX into Teams with a simple, easy-to-use interface.
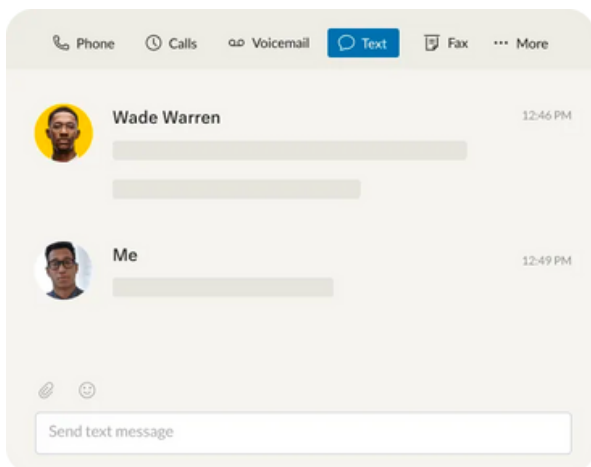

Key Features

Robust call controls for power users

Boost productivity across your organization by unlocking advanced call capabilities.

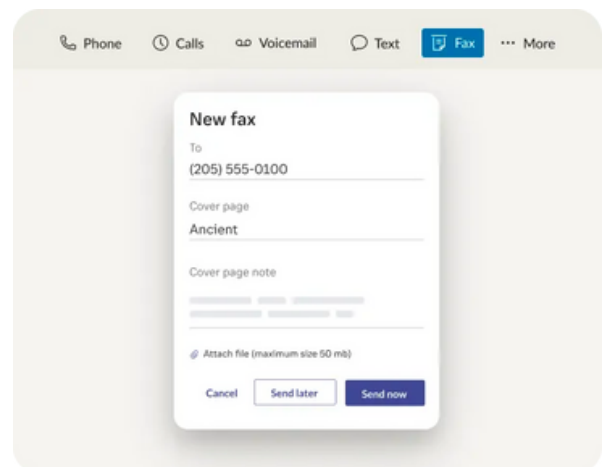

One number for all your communication needs

Phone, fax, and SMS with a single number, all available in Microsoft Teams.

Business SMS without using your personal line

Text customers and colleagues from the Teams app to keep work and personal lines separate.

Electronic fax

Embed an easy-to-use online fax service into Teams – no fax machine required.
