

Modern Financial Services Start with Samsung and CDW

Transform the customer and employee experience with secure mobile technology built for today's financial institutions.

From streamlining operations to enhancing customer and employee experiences, our secure and innovative solutions help bring your financial institution's vision to life.

Samsung and CDW help you modernize every touchpoint with flexible, scalable solutions built for financial workflows.

Built to Move Financial Services Forward

Samsung and CDW bring the collective power of our industry expertise, our dedicated team of collaborators and trusted partners, and our investments in mobile innovation all together.

Increase Operational Efficiency

Harness leading technology solutions to streamline workflows and drive greater employee experience.

Drive Growth

Expand your reach and empower customers to take control of their financial future, whether in-branch or in the field.

Manage Risk and Governance

Secure sensitive customer data and interactions with embedded security features and comprehensive device management.

WHY CDW?

CDW pairs deep financial industry expertise with end-to-end mobility services:

Consultative planning and device sourcing

Custom staging, kitting and MDM setup

Long-term lifecycle support and optimization

Proven experience across financial institutions

What Sets Samsung Apart

Samsung's portfolio of devices is built for financial services companies. Samsung Dex enables a desktop-like experience on mobile devices, streamlining workflows and reducing hardware needs. Devices are pre-configurable, brandable and ready for work anywhere.

Contact your CDW account team to learn more about Samsung solutions for your financial institution.

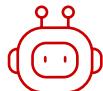

Core Solutions for Financial Workflows

Modern financial operations demand technology that's agile, secure and ready for change. Samsung and CDW deliver.

Transform Branches

Connect digital and physical banking environments with multi-use case mobile devices to unite employees and reduce costs.

Agent in a Box

Mobilize agents to meet customers where they are while increasing productivity, reducing risk and protecting customer data every step of the way.

Knowledge Worker: Regulated User

Keep your teams productive and secure without creating compliance headaches. With Android's easy-to-use open ecosystem and the security, management and analytics capabilities of Samsung Knox Suite, Knowledge Worker creates a better way to work — so your teams can focus on customers and growth.

Community Impact Banking

Increase access to mobile banking services in underserved communities with innovative mobile solutions. Drive measurable impact and responsibly grow your bank's footprint.

Powering the Future of Financial Services

Samsung supports the largest U.S. financial institutions and has helped more than 30,000 organizations meet their security goals worldwide. Combined with CDW's consultative expertise and service delivery, you're empowered to modernize securely and deliver better outcomes across your organization.
