

Keeping Your Public Safety Teams Connected Where and When it Matters the Most

AirLink Solutions increase safety, accelerate collaboration, and ensure accountability

Ensure secure and reliable communication between officers and their command centers with AirLink Vehicle Area Network Solutions:

- Maximize responsiveness, teamwork and collaboration
- Ensure accountability and transparency with live video feeds
- Increase safety for your officers and citizens

AIRLINK® CONNECTIVITY

AirLink **Vehicle Area Network** is a scalable end-to-end architecture that leverages AirLink’s purpose-built, Public Safety Network ready solutions to:

- Create a bubble of connectivity that connects all First Responder equipment and technologies in and around the vehicle and unite the fleet with central systems and databases through resilient, high-speed LTE and 5G connectivity.
- Seamlessly operate with existing equipment to extend the use and life of agencies radio and video investments enabling additional use cases such as video offload, live video streaming, or over-the-air radio updates.
- Ensure end-to-end edge-to-cloud security with FIPS-compliant and mobile-optimized, WAN-based ACM VPN appliance, and access to over-the-air firmware updates and security patches.
- Simplify management of the solution with always-on centralized remote management via the AirLink Management Service platform, integrated vehicle telemetry, and advanced mobility reporting to remotely monitor vehicle health and usage.

VAN COMPONENTS

Purpose-built routers

End-to-end security

Remote Management

24/7 Technical Support

Always-on connectivity

You can count on Sierra Wireless

PURPOSE-BUILT FOR PUBLIC SAFETY

Unlike desktop routers built for office use, AirLink routers are purpose-built and military/industry-certified to survive in extreme environments. Sierra Wireless has solutions certified for use on Public Safety Networks such as FirstNet (U.S.), Verizon Frontline (U.S.) and ESN (UK).

FIELD-PROVEN PERFORMANCE

With more than 20 years of experience, Sierra Wireless is a trusted provider of Public Safety solutions and currently serves hundreds of organizations globally. We understand the challenges first responders face in the field.

TRUSTED PARTNER

All of our solutions come with industry-leading services to ensure your devices operate securely and at peak performance. We support our customers with 24/7 technical support, always-on remote management, unrestricted access to firmware updates and hardware warranty with AirLink Complete service.

FUTURE-PROOF PATH TO 5G

The AirLink XR solution is the world's most advanced 5G router solution. With its innovative expandable design, Public Safety organizations can start with the AirLink XR80 LTE today to take advantage of the highest 4G performance in the market, and easily transition to 5G when the networks and their organization are ready.

About Sierra Wireless

Sierra Wireless (NASDAQ: SWIR) (TSX: SW) is a world leading IoT solutions provider that combines devices, network services, and software to unlock value in the connected economy. Companies globally are adopting 4G, 5G, and LPWA solutions to improve operational efficiency, create better customer experiences, improve their business models, and create new revenue streams. Sierra Wireless works with its customers to develop the right industry-specific solution for their IoT deployments, whether this is an integrated solution to help connect edge devices to the cloud, a software/API service to manage processes with billions of connected assets, or a platform to extract real-time data to improve business decisions. With more than 25 years of cellular IoT experience, Sierra Wireless is the global partner customers trust to deliver them their next IoT solution.
