Docking Station Alternative Solutions
Creating a Productive Workstation is as Easy as 1-2-3!

Docking stations may be hard-to-find right now due to the global chip shortage but we know your return to work plans can't wait. StarTech.com's wide selection of connectivity accessories makes it easy to create a high-performance dock alternative in three easy steps.

1. Choose Your Multiport Adapter

Transform your USB-C or Thunderbolt 3 laptop into a mobile workstation. With a compact multiport adapter, you can access the same productivity enhancing benefits of a docking station, with the added benefits of portability and flexibility.

**DKT30CHVUASP**
USB-C Multiport Adapter with 100W Power Delivery Pass-Through
Compatibility: Mac & Windows Compatible
Video: 4K HDMI or 1080p VGA
Port Configuration: 2x USB-A, 1x USB-C, SD Card Reader, GbE, Audio Jack

**DKT30CHVSCP**
USB-C Multiport Adapter with 100W Power Delivery Pass-Through
Compatibility: Mac & Windows Compatible
Video: 4K HDMI or 1080p VGA
Port Configuration: 3x USB-A ports, SD & MicroSD Card Reader, GbE

2. Pick Your Display Adapter

Create a dual monitor workstation with the addition of a display adapter. Choose the adapter that best fits your monitor configuration.

</tbody>
</table>

3. Add Extra USB Ports

**ST4300USB3**
4 Port SuperSpeed USB 3.0 Hub
Add external SuperSpeed USB-A ports to your laptop for access to additional peripherals.

* Please note, to mitigate any USB power concerns, we recommend the USB Hub be connected to the Multiport Adapter as it has its own power supply.

Don’t Forget the Cables!
Reliable cables ensure workstations are never left without a stable connection.
