Ransomware Detection & Response Virtual Showcase

AMER | Watch On-Demand

XDR
- DEEP DIVE DEMO
- CISO LESSONS LEARNED
- EXECUTION BEST PRACTICES

Knowing the dangers of ransomware is one thing. Putting together an action plan to take back control and build cyber resilience is another.

- Walk away with a set of actionable next steps to build and execute a ransomware detection and response program

- Learn what industry-leading CISOs have done to overcome attackers, including the tools they've used, reference architectures, and how they put their plans into place

- See real-world defenses in action with a deep dive demo of the AI-powered Trellix XDR platform
