

/// The future of  
threat detection,  
protection,  
and response

## CORPORATE FACT SHEET

### ✓ Trellix at a glance

**40K** customers

**4K+** employees

**\$1.7B** in revenue

**35** years of experience

Trellix is the living security company, delivering adaptable, innovative cybersecurity solutions to enterprises and organizations around the world.

A combination of the highly skilled McAfee Enterprise and FireEye teams, Trellix is dedicated to transforming the way organizations think about security by delivering market-leading solutions and best-in-class technology and expertise to keep customers everywhere safe and secure.

Today's dynamic world demands a holistic, integrated security ecosystem and a cloud-first approach that allows all security products to work in unison. By harnessing the power of artificial intelligence and automation to unlock insights and streamline workflows, Trellix helps organizations stay one step ahead of adversaries, adapt to new threats, and accelerate detection and correction through the entire defense lifecycle.

Chief Financial Officer

**Adam Philpott,**  
Chief Revenue Officer

**Michael Alicea,**  
Chief Human Resources Officer

**Brett Hannath,**  
Chief Marketing Officer

**Gareth Maclachlan,**  
SVP, Transformation

**Sara Aiello,**  
VP, Communications

The Trellix enterprise cybersecurity portfolio is built around extended detection and response (XDR), a holistic ecosystem that consolidates all security products into an interconnected, constantly communicating platform that's always learning and adapting to new threats. Trellix XDR integrates multiple security functions, unifies telemetry from different sources across an enterprise, and applies AI and machine learning to prioritize and quickly respond to critical threats.

## ✓ Connect with us

Trellix XDR helps government organizations and enterprises across industries:

- **Improve analyst and security operations efficiency** by correlating disparate events from multiple security tools into actionable investigations
- **Optimize deployment** by smoothly integrating Trellix products with your third-party security solutions
- **Deliver detection efficiency** by applying best security practice playbooks, updated daily, to keep up with the changing global threat landscape
- **Highlight and reduce risk** by using security analytics and automation to prioritize investigations and accelerate incident detection and response.
