

# Open for 5G Business

## Internet connectivity: Next gen possibility.

Your business demands not just reliable internet connectivity, but internet that opens the door to next gen innovation. Verizon 5G Business Internet unlocks the door to transformative 5G uses with its performance and reliability.

Verizon 5G Business Internet is a high-speed, fixed wireless access internet connectivity service that is paving the way for a new era of business innovations with speeds and capacity to connect many devices, giving your business a powerful tool to help stay competitive. Built on Verizon's 5G Ultra Wideband network, 5G Business Internet provides many times the speed of today's LTE networks, connecting your business to the internet with short lead time from order to install.

## Many business benefits, innovation ready.

5G Business Internet connects your business machines to the internet with blazing fast speed, as either a primary or redundant service. It's perfect for enabling new branches or locations, with short lead time from order to install. Best of all, because 5G Business Internet uses Verizon's Ultra Wideband network, your network can be configured to take advantage of 5G speeds, reducing jitter for video streaming, for video streaming and next-gen uses cases like AR and VR.

## Groundbreaking speed

Welcome to internet speeds that are ultrafast. With Verizon 5G Business Internet, you can expect download speeds of up to 400 Mbps. (Exact amounts vary based on the speed tier you've selected). Plus, our speed tiers are unlimited - with no data caps or throttling!

## Digital transformation

With Verizon 5G Business Internet, you can prepare your infrastructure to leverage transformative technologies such as 5G Edge. This technology is a great first-step into the 5G ecosystem, positioning your business to introduce next-gen tools to drive true business change, like AR and VR.
