Download required. Download the ArmorLock app from the Apple App Store or Google Play.

1GB = 1 billion bytes and 1TB = 1 trillion bytes. Actual user capacity may be less depending on operating environment and RAID configuration. For RAID products, storage capacity is based on RAID 0 mode.

1MB/s = 1 million bytes per second. Based on read speed; write speed may be lower. Write speed may be less. Based on internal testing; performance may vary depending upon host device, usage conditions, drive capacity, raid configuration, and other factors.

4K UHD (3840x2160) and 8K (7680x4320) support may vary based on host device, file attributes, usage conditions, and other factors.
