There's so much more to manage than print.

Where do you start — data and fleet security, reducing your costs and environmental impact or supporting your hybrid teams? Start with Xerox MPS and create a more agile, future-ready workplace.

A SMARTER, MORE SECURE AND SUSTAINABLE WORKPLACE WITH XEROX MPS

Supported by Artificial Intelligence (AI)-driven analytics, scalable cloud technology and Augmented Reality (AR)-powered service delivery.

An efficient hybrid workplace
Analyze and optimize printer usage and implement print policies to control costs.

A secure environment
Ensure the security of your data, documents and devices with proactive solutions and remediate when necessary.

Engaged, productive employees
Empower employees to purposefully print at the point of need and find digital alternatives to paper-based processes.

A sustainable print ecosystem
Advance your sustainability goals with eco-friendly devices, carbon offset and reforestation services.

WHAT'S THE ROLE OF PRINT IN THE DIGITAL AGE?

Did you know that purposeful print is a key enabler of employee engagement and productivity in the hybrid workplace? Used in tandem with digital alternatives, print makes long documents easier to read, digest, annotate and act on. In addition, print can be used to enhance important communications with specialty paper, inks and finishes.

XEROX MPS IS POWERED BY OUR LEADING-EDGE TECHNOLOGY AND GLOBAL SERVICE DELIVERY

Advanced analytics and AI are woven throughout, collecting critical data and making it easy to visualize, understand and act on.

Remote delivery and scalability via the cloud — private or multi-tenant. Built for the future so we can scale as your organization grows.

Global service delivery powered by AR provides 24/7 support and can be integrated with your own help desk system.

HOW IS MPS LEADING THE INDUSTRY?

IDC

"Xerox supports one of the broadest ranges of mobile and digital workflows, backed by its 20 years of experience hosting cloud services on a global scale."

IDC MarketScape: Worldwide Cloud MPS Hardcopy 2022 Vendor Assessment, Document #US47337721, January 2022

"Xerox not only offers a full range of capabilities...but also provides the ability to extend these services beyond the office."

IDC MarketScape: Worldwide Cloud MPS Hardcopy 2022 Vendor Assessment, Document #US47337721, January 2022

"Xerox should be on the short list of vendors for those companies that are considering security as it relates to hybrid work and enabling support for a zero trust model."

IDC MarketScape: Worldwide Security Solutions and Services Hardcopy 2022-2023 Vendor Assessment, Document #US48851622, January 2023

FedRAMP

First company to receive security authorization from FedRAMP for cloud-based managed print services.

QUOCIRCA

"Xerox is one of the most established MPS vendors in the market, with the broadest capabilities across the cloud, digital workflow, security and analytics."

MPS Landscape, 2022

"Xerox fast-tracked its net-zero goal by 10 years to 2040. Its sustainability roadmap covers its full value chain, focusing on improving processes, energy efficiency, and designing environmentally responsible products and clean technologies that extend beyond print."

Sustainability Leaders, 2022

"Xerox particularly stands out for its strong legacy in the managed print services (MPS) sector and expertise in delivering comprehensive security."

Print Security Landscape, 2023

"Xerox has architected its solutions to be multi-tenant, cloud-native applications that have low to no footprint, can be sold in a true SaaS commerical model, are scalable to enable organizations to grow and expand."

Cloud Print Services Landscape, 2023

ARE YOU GAINING ACTIONABLE INSIGHTS FROM YOUR ANALYTICS?

Ready to turn your print data into opportunity? Take MPS even further with Xerox® MPS Advanced Analytics and gain actionable, role-based insights from your valuable print, scan and fax data in a single pane of glass view.

- **Find the right information, right when you need it, in three clicks or less**, so you can spend less time searching for data scattered across your print environment and more time acting on it

- **Improve productivity and reduce costs** with the ability to identify usage trends, asset metrics and opportunities for process improvement by user, account code or department

- **Understand the health of your fleet,** including service tickets, device availability and connectivity

- **Identify security risks** and usage irregularities

- **Measure compliance** against print, security and sustainability policies

HOW MUCH TIME, MONEY AND RESOURCES ARE YOU SPENDING TO MANAGE YOUR PRINT ENVIRONMENT?

Security and data protection

☐ Do you want to increase your document security and ensure compliance with data protection regulations?

Work style shifts

☐ Would you like to gain better visibility into your printing activities and usage patterns?

Business resilience

☐ Are you looking for a partner who can help you optimize your print environment and provide insight that supports your business goals?

Digital transformation

☐ Do you want to find digital solutions to your print processes and improve your organization's productivity?

Eco-intelligence

☐ Would you like to improve your sustainability efforts and reduce your carbon footprint?

Future readiness

☐ Are you ready to take your printing capabilities to the next level with the latest technology and solutions?

CDW and CDW-G are Authorized Channel Partners

Start managing your print infrastructure instead of being managed by it. Find out how Xerox MPS can free you to focus on core business activities, such as driving growth and building a better work experience.
