WE GET SECURING THE CLOUD WITHOUT SLOWING THE BUSINESS.

CDW Amplified™ Information Security
Managed Services for Prisma Cloud

While the demand for cloud solutions and services has grown exponentially, security has struggled to keep pace with cloud deployments and migrations. To close these gaps, CDW leverages Prisma Cloud from Palo Alto Networks to deliver a unified, holistic approach for improving cloud security and compliance processes.

Managed Services for Prisma Cloud can help you achieve:

Operational Efficiencies

Increased Performance

Reduced Risk

Orchestrating the Right Solution

With CDW's Managed Services for Palo Alto Network's Prisma Cloud, organizations can gain enhanced visibility, threat prevention, compliance assurance and data protection from one comprehensive platform. Our managed cloud services help customers maximize Prisma's capabilities so they can quickly identify and manage risk and protect critical data across hybrid and multi–cloud environments. By tailoring our approach to your specific organizational goals and risk profile, CDW can ensure the seamless integration of Prisma Cloud solutions into your existing workflows and technologies, helping you better secure your cloud infrastructure and applications.

Our Approach

- **Onboarding/Offboarding:** By managing the connections to your cloud environment and quickstarting your configurations, we can simplify your onboarding and offboarding workflows so you can maximize the value of the platform and quickly obtain actionable results.

- **Ongoing Tuning and Management:** From prioritizing thousands of findings to building alert dashboards with real–time insights to managing automatic remediation, we can drive continuous analysis and management of your cloud ecosystem.

- **Remediation Assistance:** We work alongside application owners to streamline the remediation process and help you resolve environment–wide configuration issues.

- **Strategy Guidance:** Our support does not stop with Prisma. Our experts apply their extensive expertise and project knowledge to become a trusted partner in your strategic cloud security initiatives.

- **Reporting:** Our team hosts regular status meetings and detailed executive reports to ensure the ongoing success of your cloud security tool.

CDW GETS PALO ALTO NETWORKS

Palo Alto Networks enables you to secure access, protect users and applications, and control data — from anywhere. With our deep expertise in providing Palo Alto Networks solutions, CDW can assist with all aspects of your Palo Alto Networks environment.

In addition to deep professional and managed services expertise, CDW is a Palo Alto Networks Authorized Training Partner. Our instructors have been certified by Palo Alto Networks, having demonstrated exceptionally high levels of technical and presentation skills.

Furthermore, CDW has been named Palo Alto Networks State, Local and Education Government Partner of the Year, Federal Partner of the Year, Americas Partner of the Year, Global Partner of the Year and is a Diamond Innovator Partner.

CDW's full lifecycle of Services can support your organization no matter where you are on your journey

Design → Orchestrate → Manage   On–Premises → On–Journey → Cloud–Based
