

WE GET HOW TO OPTIMIZE YOUR THREAT PROTECTION.

CDW Amplified™ Secure Platform
Professional Services for Fortinet Firewalls

CDW helps you design and deploy a Fortinet® firewall solution and provides recommendations to you through either a Health Check or Adoption Services. Let our experts step in when you need deployment and/or migration expertise, an experienced IT team to provide the bandwidth for implementation, or assistance gaining comfort with performing ongoing operations of Fortinet technologies.

With a CDW Fortinet service solution, we help you protect your sensitive data and applications, increase your IT team's efficiency, minimize disruptions during cutover, and help you meet compliance and regulatory requirements (such as PCI DSS, PII, HIPAA and GDPR).

Professional Services for Fortinet Firewalls can help you achieve:

 Operational Efficiencies
  Reliability
  Reduced Risk

Orchestrating the Right Solution

CDW's Network Security Team leverages its Fortinet expertise to provide a comprehensive portfolio of professional services, which include:

- **Implementation:** After CDW helps you design your solution, we plan the deployment and then help you implement it.
- **Migration:** If you are migrating to Fortinet from a different firewall brand, CDW assists in prepping, building, testing and executing your migration to your new Fortinet solution. CDW dives deeply into all the resources you plan on migrating.
- **Health Check:** CDW can provide you with an evaluative assessment that includes firewall configuration and application firewall rules review, SD-WAN rule and SLA target validation, a findings report with guidance on best practices, and upgrades as requested.
- **Adoption:** This consultative engagement begins with a Health Check and may include an evaluation of Fortigate, FortiManager and/or FortiAnalyzer feature usage, firewall feature enablement and tuning, report building, customer implementation change validation, performance improvements, troubleshooting and gap analysis, and knowledge transfer.

CDW's full lifecycle of Services can support your business no matter where you are on your journey

Contact your account manager to learn more about CDW's Professional Services for Fortinet Firewalls.

CDW GETS FORTINET

Fortinet's next-gen firewalls provide intelligent defense against emerging threats without increasing latency or complexity that could slow down your business.

- CDW is Fortinet's largest partner and has been named Partner of the Year five times.
- CDW holds the highest level of partner status within Fortinet's partner program.
- CDW has dedicated Fortinet representatives to ensure quick response times and issue resolution.

CDW has expertise around:

- FortiGate with FortiGuard Services
- FortiManager (On-Prem and FortiCloud) with or without SD-WAN Orchestrator
- VPN Overlay Controller
- FortiClient¹
- FortiAnalyzer (On-Prem and FortiCloud)
