

WE GET SECURING THE CLOUD REQUIRES NEW SKILLS.

CDW Amplified™ Information Security
Palo Alto Networks Prisma Access SASE Security:
Design and Operation (EDU-318)

Palo Alto Networks Prisma Access SASE Security: Design and Operation is a Palo Alto-authorized training course, delivered by certified instructors in virtual and classroom settings. Successful completion of this four-day, instructor-led course will help you enhance your understanding of how to better protect your applications, remote networks and mobile users using Prisma Access Secure Access Service Edge (SASE) implementation. You will get hands-on experience configuring, managing and troubleshooting Prisma Access in a lab environment.

Palo Alto Networks Prisma Access SASE Security: Design and Operation can help you achieve:

-  Reliability
-  Reduced Risk
-  Increased Performance

Course Overview

The Palo Alto Networks Prisma Access SASE Security: Design and Operation course describes Prisma Access Secure Access Service Edge (SASE) and how it helps organizations embrace cloud and mobility by providing network and network security services from the cloud. This course is intended for people in the fields of public cloud security and cybersecurity, or for anyone who wants to learn how to secure remote networks and mobile users.

CDW is an Authorized Training Partner of Palo Alto Networks. All courses are delivered and taught by certified instructors through CDW's workforce development arm, Focal Point Academy. The technical curriculum has been developed and authorized by Palo Alto Networks and helps provide the knowledge and expertise to prepare you to protect your digital way of life.

Target Audience

This course is intended for security engineers, security administrators, security operations specialists, security analysts and network engineers.

Prerequisites

Students should have a basic knowledge of cloud computing and the public cloud. Students must complete the following courses or have equivalent experience:

- Palo Alto Networks Firewall 10.0 Essentials: Configuration and Management course
- Palo Alto Networks Panorama 10.1: Managing Firewalls at Scale course

Participants also must have experience with networking concepts including routing, switching and IP addressing.

COURSE SNAPSHOT

- **Level:** Advanced
- **Duration:** 4 days
- **Format:** Lecture and hands-on labs
- **Platform support:** Palo Alto Networks Panorama and Prisma Access

CDW GETS PALO ALTO NETWORKS

Palo Alto Networks enables you to secure access, protect users and applications, and control data – from anywhere. With our deep expertise in providing Palo Alto Networks solutions, CDW can assist with all aspects of your Palo Alto Networks environment.
