

WE GET SECURITY ORCHESTRATION, AUTOMATION AND RESPONSE REQUIRES THE RIGHT TECHNICAL TRAINING.

CDW Amplified™ Information Security
Palo Alto Networks Cortex XSOAR 6.2:
Automation and Orchestration (EDU-380)

Palo Alto Networks Cortex XSOAR 6.2: Automation and Orchestration is a Palo Alto–authorized training course, delivered by certified instructors in virtual and classroom settings. Successful completion of this four-day, instructor–led course will enable a SOC, CERT, CSIRT or SOAR engineer to start working with Cortex XSOAR integrations, playbooks, incident–page layouts and other system features to facilitate resource orchestration, process automation, case management and analyst workflow.

Palo Alto Networks Cortex XSOAR 6.2: Automation and Orchestration can help you:

Maximize
ROI

Acquire
Skills

Prepare for
Certification

Course Overview

The Palo Alto Networks Cortex XSOAR 6.2: Automation and Orchestration course includes instructor–led training to provide a fast track for learning Cortex XSOAR, including a demonstration of a complete playbook–development process for automating a typical analyst workflow to address phishing attacks. In addition, the course will help you to:

- Configure integrations, create tasks and develop playbooks
- Build incident layouts that enable analysts to triage and investigate incidents efficiently
- Identify how to categorize event information and map that information to display fields
- Develop automations, manage content, indicator data and artifact stores, schedule jobs, organize users and user roles, oversee case management, and foster collaboration

CDW is an Authorized Training Partner of Palo Alto Networks. All courses are delivered and taught by certified instructors through CDW’s workforce development arm, Focal Point Academy. The technical curriculum has been developed and authorized by Palo Alto Networks and helps provide the knowledge and expertise to prepare you to protect your digital way of life.

Target Audience and Prerequisites

This course is ideal for security–operations (SecOps), or security, orchestration, automation and response (SOAR) engineers, managed security service providers (MSSPs), service delivery partners, system integrators and professional service engineers. Prior to joining the course, participants must complete the Cortex XSOAR Analyst digital learning. Participants who have experience with scripting, the use of Python and JavaScript, and the use of JSON data objects will likely be able to apply what they learn more quickly than participants without such experience. However, completion of the course does not require proficiency in writing code.

COURSE SNAPSHOT

- **Level:** Advanced
- **Duration:** 4 days
- **Format:** Instructor–led training
- **Platform support:** Palo Alto Networks Cortex XSOAR server 6.2

CDW GETS PALO ALTO NETWORKS

Palo Alto Networks enables you to secure access, protect users and applications, and control data – from anywhere. With our deep expertise in providing Palo Alto Networks solutions, CDW can assist with all aspects of your Palo Alto Networks environment.

In addition to deep services expertise, CDW is a Palo Alto Networks Authorized Training Partner. Our instructors have been certified by Palo Alto Networks, having demonstrated exceptionally high levels of technical and presentation skills.

Furthermore, CDW has been named Palo Alto Networks State, Local and Education Government Partner of the Year, Federal Partner of the Year, Americas Partner of the Year, Global Partner of the Year and is a Diamond Innovator Partner.

CDW’s full lifecycle of Services can support your organization no matter where you are on your journey

Course Modules

The Cortex XSOAR 6.2: Automation and Orchestration course includes the following modules:

Course Module	Module Name
1	Core Functionality and Features Sets
2	Enabling and Configuring Integrations
3	Playbook Development
4	Classification and Mapping
5	Layout Builder
6	Solution Architecture
7	Docker
8	Automation Development and Debugging
9	Content Management
10	Indicators
11	Jobs and Job Scheduling
12	Users and Role Management
13	Integration Development

Certifications
