WE GET WHEN YOUR BUSINESS APPLICATIONS STOP, EVERYTHING STOPS.

CDW Amplified™ Support
CDW Technology Support — Microsoft

CDW Technology Support for Microsoft is made possible by a collaboration between CDW and Microsoft. We understand your Microsoft enterprise platforms, and the businesses they support, require a quick and timely resolution when issues arise in order to reduce or eliminate costly downtime. By engaging with CDW, you have a faster resolution due to the depth and breadth of our engineering expertise and partnerships. We understand you, our client, and provide a more personalized experience.

CDW Technology Support — Microsoft can help you achieve:

- **Operational Efficiencies**
- **Reliability**
- **Reduced Risk**

**Orchestrating the Right Solution**

CDW Technology Support (CTS) is a CDW–branded service backed by Microsoft to secure your select Microsoft software support needs. CDW will take your first call to help resolve your issue. If escalation to the OEM is required, CDW will do that on your behalf. Because of CDW’s depth and breadth of expertise, we are able to get a top-level, Microsoft-certified engineer on demand, resulting in expedited incident resolution when you need it most. Some of the features and benefits of CDW Technology Support include the following:

- CDW Technology Support allows you a single point of contact. We provide around-the-clock (for Priority 1 incidents), end-to-end ownership of all incidents, service requests and software support.

- Your organization is given top priority for incident resolution and escalation. CDW constantly monitors our CTS Performance Dashboard and holds weekly calls to review any and all CTS cases to ensure quick resolution, case closure, client satisfaction and delight.

- Where applicable, CDW handles the escalation to Microsoft, providing a seamless model focused on resolution and client communication every step of the way.

**CDW GETS MICROSOFT**

CDW provides the right combination of certified Microsoft professionals with the expertise and experience to support multiple Microsoft software platforms.

**Supported Microsoft platforms:**

- Microsoft Server OS
