

The High-Performance Partner You Can Count On

With years of IT channel experience, LEAF provides innovative technology financing solutions designed to meet our clients' specific needs. Our expertise in IT solutions, combined with our extensive relationships with hardware and software manufacturers, distributors, resellers, and end users, makes us a leader in technology financing. We understand our customers' needs.

Why Finance Your Business Technology?

Low Upfront Costs

Financing gets you the technology you need with minimal upfront costs — as little as \$0 — and predictable payments with monthly, quarterly, or annual terms. Other benefits include deferred payments and without interest hardware payment plans.

Low Fixed Payments

Our financing options offer low fixed payments, so you can plan your IT investments and predict your future expenses and optimize your IT budget with monthly, quarterly, or annual payments.

Conserves Cash, Preserves Credit

LEAF's financing solutions let you conserve your cash and preserve your established credit lines for more lucrative investments like expansion, rather than tying up resources in depreciating technology assets.

Total Solution Financing

Combine hardware, software, and services into a single payment. By bundling a total solution that includes 100% financing, services, and installation and labor costs, you maximize your IT investment and make the purchasing process so much easier.

Service and Convenience

LEAF provides you with a single point of contact to get you the technology you need. From purchasing to planning, we're here to help you succeed with support such as conference calls with your technology vendor and live updates throughout the financing process.

We're More Than Just Hardware

At LEAF, we provide financing for more than hardware — we develop single-payment solutions for any mix of hardware, software, and services. Here's what we finance:

 POS systems	 Digital signage
 Telecom equipment	 Security equipment
 Computers and peripherals	 And more

More Reasons to Finance Your Technology

Technology depreciates rapidly, and it's typically not an asset that you'll keep for more than 3 – 5 years. With a financing option, you can take full advantage of the technology without the long-term risk of equipment obsolescence. A tech refresh plan also allows you to get new technology after you return your old equipment.

LEAF Commercial Capital, Inc., a subsidiary of M&T Bank.

Terms and Conditions: All applications are subject to credit approval. LEAF finances equipment only for business purposes, and not for personal, family, or household use.

Get Equipped in Four Easy Steps

Send Us Your Vendor's Quote

Once you've decided on the technology solution your business needs, send us your vendor's quote, and we'll begin the credit approval process.

Get Approved

Our credit approval process is quick! Once you're approved, we'll send you a simple contract to sign.

Sign Your Contract

Once you send us your signed contract, we'll issue a purchase order to your vendor.

Verify Delivery of Your Solution

After you verify delivery and acceptance of your technology, we pay your vendor, and you'll start to make regular payments.
